Section 2.13. "*Common Area*" means those areas of land shown on any recorded subdivision plat of the Property and intended to be devoted to the common use and enjoyment of the Members of the Association, and other areas on or adjacent to the Property of common interest to all of the Lots, including but not limited to, Property decorative fencing, lakes (if any), drainage features, rights-of-way and parkways, security areas and structures, private streets on the Property, walkways, driveways and landscaping at Property entries and other areas of common interest to the Lots. Such interest owned by the Association may include, without limitation, estates in fee, estates for terms of years, or easements. In addition to the other

Common Areas defined herein, the Common Areas shall include decorative fencing installed by the Declarant around the perimeter of the Property and around the Common Areas. After the development of the Property has been completed, the ownership, repair and maintenance of the decorative fence shall vest solely in the Association.

Section 2.14. "*Common Expenses*" means (i) premiums for the insurance carried by the Association under *Article XII*; (ii) all other expenses incurred by the Association in administering, servicing, conserving, managing, maintaining, repairing or replacing the Common Area and any Improvements located on it; (iii) all expenses expressly declared to be Common Expenses by the Documents; (iv) all expenses lawfully determined to be Common Expenses by the Board of Directors; and (v) all expenses to be allocated among the Owners as provided in *Article IX*.

Section 2.16. "*Declarant Control Period*" means the period beginning on the date this Declaration is first recorded in the office of the Clerk and Recorder of Denton County, Texas, and ending on the earlier of: (a) the date which is 20 years later, (b) the date on which the Declarant has platted all of the Property and sold 100% of the Lots shown on the Plats, or (c) the date determined by the Declarant in its sole discretion. The Declarant Control Period may be reinstated or extended by agreement between Declarant and the Association, subject to whatever terms, conditions, and limitations the Board of Directors may impose on the subsequent exercise by Declarant of the Special Declarant Rights. After the termination of the Declarant Control Period, Declarant, if still an Owner, will continue to have all the rights and duties ordinarily given to Members under this Declaration.

Section 2.17. "*Declaration of Annexation*" means a declaration prepared and recorded in accordance with the provisions of *Article XVI* to annex additional property to the Property governed by this Declaration.

Section 2.18. "*Default Assessment*" means any Assessment levied by the Association pursuant to *Section 9.5* below.

Section 2.19. "*Default Rate*" means an annual rate of interest that is the lesser of (i) eighteen percent (18%) per annum, and (ii) the Maximum Lawful Rate permitted by applicable law. Notwithstanding anything to the contrary herein, the interest charged, collected, contracted and/or received under this Declaration shall not exceed the Maximum Lawful Amount. The term "Maximum Lawful Rate" means the maximum rate of interest and the term "Maximum Lawful Amount" means the maximum amount of interest that are permissible under applicable state or federal law for the type of debt created by this Declaration. If Article 1.04 of the Texas Credit Code is applicable to such debt, and applicable state or federal law does not permit a higher interest rate, the "Indicated (Weekly) Ceiling" (as defined as Article 1.04(a)(1) of the Texas Credit Code) shall be the Interest Rate Ceiling applicable to this Note and shall be the basis for determining the Maximum Lawful Rate in effect from time to time during the term of such debt. If applicable state or federal law allows a higher interest rate or federal law preempts the state

law limiting the rate of interest, then the foregoing Interest Rate Ceiling shall not be applicable to such debt. If the Maximum Lawful Rate is increased by statute or other governmental action subsequent to the date of this Declaration, then the new Maximum Lawful Rate shall be applicable to this Declaration from the effective date thereof, unless otherwise prohibited by applicable law. Because of the possibility of irregular periodic balances of principal, premature payment, and the fluctuating nature of such debt, the total interest that will accrue under this Declaration cannot be determined in advance. The Association does not intend to contract for, charge or receive more than the Maximum Lawful Rate or Maximum Lawful Amount, and to prevent such an occurrence, all amounts of interest, whenever contracted for, charged or received by the Association with respect to the loan of money evidenced by such debt, shall be spread, prorated or allocated over the full period of time such debt is unpaid, including the period of any voluntary forbearance period. The total amount of interest contracted for, charged or received to the time of any demand shall be spread, prorated or allocated along with any interest thereafter accruing over the full period of time that such debt thereafter remains unpaid for the purpose of determining if such interest exceeds the Maximum Lawful Amount. The Association shall compute the total amount of interest that has been contracted for, charged or received by Association or payable by Owner under such debt and compare such amount to the Maximum Lawful Amount that could have been contracted for, charged or received by the Association. If such computation reflects that the total amount of interest that has been contracted for, charged or received by the Association or payable by such Owner exceeds the Maximum Lawful Amount, then the Association shall apply such excess to the reduction of the principal balance and not to the payment of interest; or if such excess interest exceeds the unpaid principal balance, such excess shall be refunded to such Owner. This provision concerning the crediting or refund of excess interest shall control and take precedence over all other agreements between such Owner and the Association so that under no circumstances shall the total interest contracted for, charged or received by the Association exceed the Maximum Lawful Amount.

Section 2.20. "*Design Guidelines*" means the guidelines and rules published and amended and supplemented from time to time by the Architectural Control Committee. The initial Design Guidelines are attached hereto as *Exhibit D*.

Section 2.21. "*Development Rights*" is defined in *Section 11.1.2*.

Section 2.22. "*Director*" means a member of the Board.

Section 2.23. "*Documents*" means the basic documents creating and governing Chateau du Lac, including, but not limited to, this Declaration, the Articles of Incorporation, the Bylaws, the Design Guidelines, any Declaration of Annexation, the Rules and any other procedures, rules, regulations or policies adopted under such documents by the Association, all as may be amended from time to time.

Section 2.24. "*First Mortgage*" means any Mortgage which is not subject to any lien or encumbrance except liens for taxes or other liens which are given priority by statute.

Section 2.25. "*First Mortgagee*" means the holder of record of a First Mortgage.

Section 2.26. "*Improvement(s)*" means all Buildings, parking areas, loading areas,

fences, walls, hedges, plantings, lighting, poles, driveways, roads, ponds, lakes, trails, gates, signs, changes in any exterior color or shape, excavation and all other site work, including, without limitation, grading, road construction, utility improvements, removal of trees or plantings, and any new exterior construction or exterior improvement which may not be included in the foregoing. "Improvement(s)" does not include turf, shrub, or tree repair or replacement of a magnitude which does not change exterior colors or exterior appearances. "Improvement(s)" does include both original improvements and all later changes and improvements.

Section 2.27. "*Living Unit*" means a residential dwelling unit intended for use and occupancy by a single family.

Section 2.28. "*Lot*" means a parcel of land designated as a lot on any Plat of the Property which the Declarant makes subject to this Declaration. The streets, roads, and Common Area on any Plat shall not be considered to be separate Lots.

Section 2.29. "*Maintenance Fund*" means the fund created by Assessments and fees levied pursuant to *Article IX* below to provide the Association with the funds required to carry out its duties under this Declaration.

Section 2.30. "*Manager*" means such Person retained by the Board of Directors to perform certain functions of the Board pursuant to this Declaration or the Bylaws.

Membership will be appurtenant to and may not be separated from ownership of any Lot. No Owner, whether one or more Persons, will have more than one membership per Lot owned, but all of the Persons owning each Lot will be entitled to rights of membership and of use and enjoyment appurtenant to such ownership.

Section 4.2. *Transfer of Membership.* An Owner may not transfer, pledge or alienate its membership in the Association in any way except upon the sale or encumbrance of his Lot, and then only to the purchaser or Mortgagee of his Lot.

Section 4.3. *Classes of Membership.* Initially, the Association will have one class of voting membership, composed of all Owners, including Declarant.

When more than one Person holds an interest in any Lot, all such Persons will be Members. If more than one of the multiple Owners are present at a meeting in person or by proxy, the vote allocated to their Lot may be cast as they, among themselves, determine, but in no event shall more than one (1) vote be cast with respect to any Lot.

Any Owner of a Lot that is leased may assign his voting right to the tenant, provided that a copy of the instrument of assignment is furnished to the Secretary of the Association prior to any meeting in which the tenant exercises the voting right.

Section 4.5. *Appointment of Officers and Directors by Declarant.* Until the expiration of the Declarant Control Period, Declarant will retain the exclusive powers to appoint, remove and replace Directors and officers of the Association.

Notwithstanding the foregoing, Declarant may voluntarily surrender the right to appoint, remove and replace Directors and officers of the Association before the end of the Declarant Control Period by providing a notice to that effect to the Association. However, upon voluntarily terminating this Special Declarant Right in advance of the expiration of the Declarant Control Period, Declarant may require that specified actions of the Association or the Board, as described in an instrument executed and recorded by Declarant in the office of the Clerk and Recorder of Denton County, Texas, be approved by Declarant before those actions become effective.

If no address is registered or if all of the Owners cannot agree, then the address of the Lot will be deemed the registered address until another registered address is furnished as required under this Section.

If the address of the Lot is the registered address of the Owners, then any notice will be deemed duly given if delivered to any Person occupying the Lot or sent to the Lot by any other means specified for a particular notice in any of the Documents, or if the Lot is unoccupied, if the notice is held and available for the Owners at the principal office of the Association. All notices and demands intended to be served upon the Board of Directors will be sent to the address of the Association or such other address as the Board may designate from time to time by a notice delivered or published to all Owners in accordance with this Section.

Accurate cornice detail on the front of the home shall be included.

*6.5.3. Review Period* The Committee shall, within thirty (30) days after receipt of each required submission of plans, advise the party submitting the same, in writing, at an address specified by such party at the time of submission of (i) the approval of plans or (ii) the disapproval of plans, specifying the segments or features of the plans which are objectionable and suggestions, if any, for the curing of such objections. In the event the Committee fails to advise the submitting party by written notice within the time set forth above of either the approval or disapproval of the plans, the applicant may give the Committee written notice of such failure to respond, stating that, unless the Committee responds within ten (10) days of receipt of such notice, approval shall be deemed granted. However, no plans, whether expressly approved or deemed approved pursuant to the foregoing, shall be inconsistent with the Design Guidelines unless a variance has been granted in writing pursuant to *Section 6.10* hereof.

Section 6.6 *Approved Builder Group and Approved Builder.* Only builders who have qualified for inclusion into the Approved Builder Group may construct or build a Living Unit within the Property. In order to qualify for admission into the Approved Builder Group, the Builder must submit an application to the Committee and receive written approval from the Committee and receive written approval from the Committee for inclusion or admission into the Approved Builder Group in Chateau du Lac (a Builder who is a member of the Approved Builder Group is referred to in this Declaration as an "Approved Builder"). Such application shall be in the form required by the Committee and shall include, without limitation, evidence that: (i) the Builder holds a current certificate of registration with the Texas Residential Construction Commission under Chapter 416 of the Texas Property Code; (ii) the Builder maintains a Master Builder Certification from the National Association of Homebuilders or its professional equivalent; (iii) the Builder is adequately insured; (iv) the Builder owns at least one (1) Lot at The Enclave at Chateau subdivision; and (v) the Builder has constructed and sold a minimum of five (5) homes valued at more than \$2,000,000.00. The Builder shall also be required to provide to the Committee the name, address and telephone numbers of at least three (3) clients referrals and one (1) bank reference. The Committee may require the submission of such additional information as it deems necessary to consider an application as an Approved Builder. If, for any reason, there is no Approved Builder Group in place or in existence, then no Builder may construct a Living Unit within the Property unless and until it has received written authorization from Declarant or the Committee that it is considered an Approved Builder. If any Owner desires that a Builder other than a Builder in the Approved Builder Group construct a Living Unit: (i) the Owner and Builder must submit an application to the Committee for permission to construct a Living Unit; (ii) the Builder must then receive written approval or permission from the Committee to construct a Living Unit; and (iii) the Builder must meet any and all requirements set by the Committee, including but not limited to, purchase of another Lot in the Property.

In reviewing an application for Approved Builder status, the Committee may consider (but shall not be limited to consideration of), the Builder's financial stability, construction experience, years in business, professional licensing, professional awards and achievements, proven record of superior workmanship and quality of design, customer satisfaction, and commitment to warranty programs. The Committee's selection criteria may be based upon purely subjective considerations.

Section 6.7. *Other Requirements.* Compliance with the Chateau du Lac design review process is not a substitute for compliance with Town building, zoning and subdivision regulations, and each Owner is responsible for obtaining all approvals, licenses, and permits as may be required prior to commencing construction.

Further, the establishment of the Architectural Control Committee and procedures for architectural review will not be construed as changing any rights or restrictions upon Owners to maintain and repair their Lots and Improvements as otherwise required under the Documents.

Section 6.8. *Limitation of Liability.* Review and approval of any application pursuant to this Article is made on the basis of aesthetic considerations only, and the Committee shall not bear any responsibility for ensuring (i) structural integrity or soundness of approved construction or modifications, (ii) compliance with building codes and other governmental requirements, or (iii) conformity of quality, value, size or design among Lots. The Committee will use its own judgment in accepting or disapproving all plans and specifications submitted to it. Neither the Committee nor any individual Committee member will be liable to any Person for any official act of the Committee in connection with submitted plans and specifications, except to the extent the Committee or any individual Committee member acted with malice or harmful intent. Approval by the Committee does not necessarily assure approval by the appropriate governmental board or commission for the Town. Notwithstanding that the Committee has approved plans and specifications, neither the Committee nor any of its members will be responsible or liable to any Owner, developer or contractor with respect to any loss, liability, claim or expense which may arise by reason of such approval of the construction of the Improvements. The Committee's approval of any application shall not be deemed to be a representation or warranty that the construction or modification of any improvement pursuant to such approval will be free of defects in the quality of materials or labor provided or in its design. Each Owner should obtain whatever soil reports, foundation studies, and/or engineering studies the Owner deems necessary to determine the adequacy of construction of any improvement prior to the purchase of a Lot. Neither the Board, the Architectural Control Committee, nor any agent thereof, nor Declarant, nor any of its partners, employees, agents or consultants will be responsible in any way for any defects in any plans or specifications submitted, revised or approved in accordance with the provisions of the Documents, nor for any structural or other defects in any work done according to such plans and specifications. In all events the Committee will be defended and indemnified by the Association in any such suit or proceeding which may arise by reason of the Committee's review or decision in accordance with the provisions of Section 1396-2.22.A of the Texas Non-Profit Corporation Act, as amended (but, in the case of any such amendment, only to the extent that such amendment permits broader indemnification than permitted prior to such amendment).

Section 6.9. *Enforcement.*

6.9.1. *Inspection.* Any member or authorized consultant of the Architectural Control Committee, or any authorized officer, Director, employee or agent of the Association may enter upon any Lot at any reasonable time after notice to the Owner, without being deemed guilty of trespass, in order to inspect Improvements constructed or under construction on the Lot to determine whether the Improvements have been or are being built in compliance with the Documents and the plans and specifications approved by the Architectural Control Committee.

6.9.2. *Certificate of Compliance Upon Completion of Construction.* Before any Improvements on a Lot may be occupied, the Owner of the Lot will be required to obtain an acknowledged certificate, in recordable form, setting forth generally whether, to the best of the Committee's knowledge, that the Improvements on a particular Lot have been substantially

completed in accordance with the plans and specifications approved by the Committee (a "Certificate of Compliance"). Without limiting the generality of the preceding sentence, the Committee may require, as a condition to the issuance of the Certificate of Compliance, that the Owner pay a reasonable fee established by the Committee from time to time and deposit with the Committee such sums as may be necessary to complete the landscaping on the Lot by a specified date. An operable irrigation system for the entire property and all front yard landscaping must be installed at earlier of occupancy or completion. If the landscaping is not completed as scheduled, the Committee may apply the deposit to cover the cost of completing the work and enforce such other remedies as are available to the Association for the failure of the Owner to comply with these covenants, including without limitation the remedies set forth in this *Section 6.9*. Unless the Committee responds to such request within thirty (30) days after receipt of the request, it will be conclusively presumed that the Owner and the Owner's Improvements are in conformance with all the plans and specifications approved by the Committee.

6.9.3. *Certificate of Compliance-Generally.* Upon payment of a reasonable fee established from time to time by the Architectural Control Committee, and upon written request of any Owner or his agent, an existing or prospective Mortgagee, or a prospective grantee, the Committee will issue an acknowledged certificate, in recordable form, setting forth generally whether, to the best of the Committee's knowledge, the Improvements on a particular Lot are in compliance with the terms and conditions of the Design Guidelines. Unless the Committee responds to such request within thirty (30) days after receipt of the request, it will be conclusively presumed that the Owner and the Owner's Improvements are in conformance with all the terms and conditions subject to the control of the Committee.

6.9.4. *Deemed Nuisances.* Every violation of these Covenants is hereby declared to be and to constitute a nuisance, and every public or private remedy allowed for such violation by law or equity against a Member will be applicable. Without limiting the generality of the foregoing, these Covenants may be enforced as provided below:

(i) *Fines for Violations.* The Committee may adopt a schedule of fines for failure to abide by the Committee rules and the Design Guidelines, including fines for failure to obtain any required approval from the Committee or failure to construct Improvements in accordance with approved plans. The following minimum fines are established for the following violations:

<u>VIOLATION</u>	<u>MIN. FINE FOR EACH VIOLATION</u>

Failure to comply with the applicable requirements regarding any structure	\$1,000.00
Failure to maintain landscaping or to mow as required	\$1,000.00
Failure to remove Garbage	\$1,000.00
Failure to use a Builder from the "Approved Builder Group", if any, or	

to obtain permission from the Committee for chosen Builder if there is no "Approved Builder Group"	\$1,000.00 per week
Failure to continue work on construction of Living Unit after commencement and all interruptions of 90 consecutive calendar days or more	\$1,000.00 per month, prorated
Failure to complete the required landscaping per Design Guidelines	\$1,000.00 per month, prorated
Commencement of construction of any improvement without approval of the Committee or after the required commencement date	\$1,000.00 per week
Occupancy of any house or structure in violation of Design Guidelines	\$500.00 per month
Sign violation	\$25 per day up to \$750 per month
All other violations of this Declaration or Rules and Regulations	\$250.00 per month

(ii) *Removal of Nonconforming Improvements.* The Association, upon request of the Committee and after reasonable notice to the offender and, if different, to the Owner, may enter upon any Lot at any reasonable time after notice to the Owner, without being deemed guilty of trespass, and remove and/or complete any Improvement constructed, reconstructed, refinished, altered, abandoned or maintained in violation of these Covenants. The Owner of the Improvement will immediately reimburse the Association for all expenses incurred in connection with such removal or completion. If the Owner fails to reimburse the Association within thirty (30) days after the Association gives the Owner notice of the expenses, the sum owed to the Association will bear interest at the Default Rate from the date the expense was incurred by the Association through the date of reimbursement in full, and all such sums and interest will be a Default Assessment enforceable as provided in *Article IX*.

(iii) *Notice of Violation.* To evidence any violation of this *Article VI* or *Article VII* by any Owner, the Board may file, but is not required to file, in the Deed Records of Denton County, Texas, a notice of violation setting forth (i) the violation, (ii) the name of the Owner and Lot, and (iii) a sufficient legal description of the Lot. Such notice shall be signed and acknowledged by an officer or duly authorized agent or attorney of the Association. The cost of preparing and recording such notice may be assessed against the non-conforming Lot and collected as a Default Assessment pursuant to *Article IX*.

(iv) *Expulsion.* Any contractor, subcontractor, agent, employee or other invitee of an Owner who fails to comply with the terms and provisions of this Declaration may be excluded by the Board from further construction activity within the Community. Any Approved Builder who fails to comply with the terms and provisions of this Declaration may lose its status as an Approved Builder. In such event, neither the Association, its officers, nor its directors shall be held liable to any Person for exercising the rights granted by this Section.

(v) *General.* In addition to the foregoing, the Association shall have the authority and standing to pursue all legal and equitable remedies available to enforce the provisions of this Article and the decisions of the Committee.

Section 6.10. *Variances.* The Committee may authorize variances from compliance with the Design Guidelines and any required procedures when circumstances such as topography, natural obstructions, hardship or aesthetic or environmental considerations so require. Such variances shall not, however, (i) be effective unless in writing; (ii) be contrary to the restrictions set forth in this Declaration; or (iii) estop the Committee from denying a variance in other circumstances. For purposes of this Section, the inability to obtain approval of any governmental agency, the issuance of any permit, or the terms of any financing shall not constitute hardships.

Section 6.11. *Commencement and Continuity of Construction.* Construction of all Living Units and other structures permitted under this Declaration shall be commenced within twenty-four (24) months from the date Declarant transfers title to the Lot to the Owner or three (3) months from the date the Committee approves of the plans under Article VI of this Declaration, whichever occurs earlier. In the event construction has not commenced in accordance with this condition, Declarant and/or his/her assigns have the first right of refusal to repurchase said Lot or portion of the Property at the original purchase price as indicated on the original closing statement within a 30-day period. In the event the Owner transfers title to his or her lot within twenty-four (24) months from the date he/she acquired title from Declarant, the transferee must commence construction within the original twenty-four (24) month time frame or receive a written extension from the Committee or the Association.

All Improvements commenced on the Property will be prosecuted diligently to completion and will be completed within twenty-four (24) months after commencement, unless an exception is granted in writing by the Committee. If an Improvement is commenced and construction is then abandoned for more than ninety (90) days, or if construction is not completed within the required 24-month period, then after notice and opportunity for hearing as provided in the Documents, the Association may impose a fine of not less than \$100.00 per day (or such other reasonable amount as the Association may set) to be charged against the Owner of the Lot until construction is resumed, or the Improvement is completed, as applicable, unless the Owner can prove to the satisfaction of the Board of Directors that such abandonment is for circumstances beyond the Owner's control. Such charges will be a Default Assessment and lien as provided in *Article IX*.

No house or other structure on any portion of the Property shall be occupied as a Living Unit it is completed in accordance with the provisions of this Declaration and the requirements of the Town of Flower Mound, Denton County, Texas.

Section 6.12. *Reconstruction of Common Area.* The reconstruction by the Association after destruction by casualty or otherwise of any Common Area that is accomplished in substantial compliance with "as built" plans for such Common Area will not require compliance with the provisions of this Article or the Design Guidelines.

Section 6.13. *Construction Deposit.* In order to insure an Owner's compliance with the Documents, each Owner of a Lot shall pay to the Association a construction deposit, in an amount established by the Board from time to time, upon the Owner's submission of final plans and specifications for the construction or modification of an improvement under this *Article VI*. This deposit is in addition to any such deposit required under a separate agreement between an Owner and the Declarant. In the event the Committee disapproves of the final plans and specifications, the Association shall promptly return the construction deposit to said Owner upon receipt of the Owner's written request to do so. If said plans and specifications are approved, the entire construction deposit shall be held by the Association until construction of the improvement is completed in accordance with the approved plans as determined by the Board in its sole discretion. The Association shall release the construction deposit to the Owner, less any funds expended or reserved by the Association pursuant to this Section, within thirty (30) days of receipt of written notice from the Owner of completion of the improvement.

The Association may, without waiving any other remedy provided by this Declaration or by law, draw upon the construction deposit or withhold the release of the deposit as necessary to cover, among other things (i) the cost or anticipated cost to repair damage to the Common Area caused by the Owner, his contractors, subcontractors, agents or employees, (ii) the cost or anticipated cost to perform the care, maintenance or repairs required to be performed by an Owner pursuant to this Declaration and any rules promulgated thereunder, and (iii) the cost or anticipated cost to restore an Owner's Lot to a condition existing prior to the commencement of nonconforming work (including, without limitation, the demolition and removal of any unapproved or nonconforming improvement). If any part of the construction deposit is applied by the Association, the Owner shall, immediately upon demand, deposit with the Association a sum equal to the amount so applied in order to restore the construction deposit to its original amount.

Section 6.14. *Builder Performance.* Neither the Association, the Committee or the Declarant, nor any affiliate of Declarant, as hereinafter defined, are a co-venturer, partner, agent, employer, stockholder or affiliate of any kind of or with any Builder, nor is any Builder an agent of Declarant or an affiliate of Declarant. Therefore, the Association, the Committee, the Declarant and affiliates of Declarant shall not be responsible for, or guarantors of, performance by any Builder of all or any of its obligations to any Owner pursuant to any contracts for the sale or construction of a Living Unit or Lot or otherwise. Neither the Association, the Committee or the Declarant nor any affiliates of Declarant has made, or have made, any warranty or representation with respect to performance by any Builder under any contract or otherwise.

Such Owner acknowledges and agrees that neither the Association, the Committee or the Declarant nor any affiliate of Declarant share any liability or obligation to Owner, related to or arising out of any contract with a Builder or otherwise, by reason of any failure by a Builder fully and adequately to perform its obligations to Owner. Owner further acknowledges and agrees that Owner has not, in entering into any contract with a Builder, relied upon any representations, oral or written, of the Association, the Committee, the Declarant or any affiliate of Declarant or any salesperson.

Section 7.2. *Use of Lots.* Each Lot may be used only for the purposes permitted by the applicable zoning, including any applicable planned unit development. If the provisions of the applicable planned unit development are more restrictive than the provisions of this Declaration, the more restrictive provisions of the planned unit development shall be controlling. No business, trade or similar activity may be conducted in or from any Lot, except that an Owner or resident of a Living Unit may conduct business activities within the Lot so long as (i) the existence or operation of the business activity is not apparent or detectable by sight, sound or smell from outside the Lot, (ii) the business activity conforms to all zoning requirements for the Property, (iii) the business activity does not noticeably increase the level of vehicular or pedestrian traffic or the number of vehicles parked in the Property, (iv) the business activity does not involve door-to-door solicitation of residents of the Property, and (v) the business activity is consistent with the residential character of the Property and does not constitute a nuisance or a hazardous or offensive use, or threaten the security or safety of other residents of the Property, as may be determined in the sole discretion of the Board.

Garage sales, moving sales, rummage sales, or similar activities on any Lot shall be subject to such restrictions as may be imposed by the Board from time to time, including restrictions on the number and the days during the year in which such sales may occur.

Section 7.23. *Camping and Picnicking.* No camping or picnicking will be allowed within the Property except in those areas designated for those purposes. The Board, in its discretion, may ban or permit public assemblies and rallies within the Property.

Section 7.24. *House Numbers.* Each Living Unit will have a house number and mailbox number with a design and location established by the Architectural Control Committee. All house and mailbox numbers shall be visible from the road, either on the building or at the driveway entrance.

Section 7.25. *Fire Clearance Measures.* In construction and landscaping of houses, Owners shall create and maintain defensible space/vegetative clearance measures around structures as required by the Chateau du Lac Subdivision Regulations and as indicated on the approved planned unit development for the Property, for the purpose of reducing fire danger.

Section 7.26. *Roofing Material.* Owners shall utilize only those roofing materials permitted by the Design Guidelines.

Section 7.27. *Building Code.* All improvements shall be constructed in accordance with the applicable building codes of the Town. All development of the Property shall be in accordance with the applicable building code and building permits shall be obtained as provided

in the applicable building code. All development of the Property shall also be in accordance with the zoning regulations applicable to the Property and the provisions of the applicable planned unit development.

Section 7.28. *Fencing.* Fence height and material shall be in accordance with the Design Guidelines.

Section 7.29. *Clear Vision Area and Cul-de-sacs.* No fence, wall, hedge, shrub, planting or other obstruction to view in excess of two feet (2) in height shall be placed or permitted to exist on any corner Lot within the triangular area formed by the street right-of-way lines and a line connecting them at a point twenty-five feet (25') from the intersection of the right-of-way lines, or in the case of a rounded property corner, from the intersection of the right-of-way lines. The same sight line limitations shall apply on any Lot within ten feet (10') from the intersection of a street right-of-way line to the edge of a driveway pavement edge or alley right-of-way line to the edge of a driveway pavement edge or alley right-of-way line. No tree shall be permitted to remain within such distance of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines.

Section 7.30. *Nuisance.* No obnoxious or offensive activity will be carried on within the Property, nor will anything be done or permitted which will constitute a public nuisance. No noise or other nuisance will be permitted to exist or operate upon the Property so as to be offensive or detrimental to any other part of the Property or its occupants.

Section 7.31. *General Practices Prohibited.* The following practices are prohibited at Chateau du Lac:

7.31.1. Allowing construction suppliers and contractors to clean their equipment other than at a location designated for that purpose by the Architectural Control Committee;

7.31.2. Removing any rock, plant material, top soil or similar items from any property of others;

7.31.4. Use of surface water for construction; or

7.31.5. Careless disposition of cigarettes and other flammable materials.

Section 7.32. *Use of Property During Construction.* It will be expressly permissible and proper for Declarant and any Owner acting with the prior written consent of the Architectural Control Committee, and their respective employees, agents, independent contractors, successors, and assigns involved in the construction of Improvements on, or the providing of utility service to, the Property, or other real property owned by Declarant, to perform such activities and to maintain upon portions of the Property as they deem necessary, such facilities as may be reasonably required, convenient, necessary or incidental to such construction and development of

the Property. This permission specifically includes, without limiting the generality of the foregoing, maintaining storage areas, construction yards and equipment and signs. However, no activity will be performed and no facility will be maintained on any portion of the Property in such a way as to unreasonably interfere with or disturb any purchaser or Owner of a Lot, or to unreasonably interfere with the use, enjoyment or access of such Owner or his tenants, employees, guests, or business invites, of and to his Lot. If any Owner's use under this provision is deemed objectionable by the Architectural Control Committee, then the Architectural Control Committee, as applicable, in its sole discretion, may withdraw this permission.

Notwithstanding the foregoing, this Section will not operate to prevent the exercise of any Special Declarant Rights.

Section 7.33. *Partition or Combination of Lots.* No part of a Lot which is restricted in use to Living Units may be partitioned or separated from any other part thereof. No such Lots may be combined, but the Owner of two or more contiguous Lots may build one Living Unit on the contiguous Lots, upon complying with all applicable requirements of the Town, and with all applicable Design Guidelines, including without limitation procedures for adjusting Building Sites otherwise drawn for the Lots to accommodate a larger Living Unit, minimum and maximum limitations of living area that may be constructed on any given number of contiguous Lots, and measures necessary to preserve any easements reserved with respect to the contiguous Lots. Declarant, however, hereby expressly reserves the right to subdivide, change the boundary line of and replat any Lot(s) owned by Declarant subject to approval from the Town of Flower Mound.

The fact that two or more contiguous Lots may be owned by one Person and developed with one single family Living Unit will not affect the number of votes or the amount of Assessments allocated to the Lots. If the Owner is required by the Town or any other governmental authority or by a Mortgagee to replat the Lots in order to construct Improvements on them, the number of votes and the allocation of Assessments to the Lots after replating will equal the sum of the votes and Assessments allocated to the Lots before replating. Each Lot will be conveyed, transferred, gifted, devised, bequeathed, encumbered or otherwise disposed of, as the case may be, with all appurtenant rights and interests created by law or by this Declaration, including the Owner's membership in the Association and the right to use the Common Area, and with the appropriate allocation of voting rights and liability for Assessments established for the Lot as provided in this Deduction.

Section 7.34. *Common Area--Covenants to Apply.* The provisions of this Article above, with the exception of Section 7.2, will apply to the Common Area, and the Common Area will have the benefit of the provisions of this Article.

Section 7.35. *Rental and Leasing.* The Owner of a Lot will have the right to rent or lease his Lot, subject to the following conditions:

7.35.1. For Lots in areas designated on the Plat as being for single family residential use, all leases or rental agreements must be in writing with a minimum term of at least six (6) months.

7.35.2. The lease or rental agreement shall be specifically subject to the Documents, and any failure of a tenant to comply with the Documents will be a default under the lease or rental agreement.

7.35.3. The Owner shall be liable for any violation of the Documents committed by the Owner's tenant, without prejudice to the Owner's right to collect any sums paid by the Owner on behalf of the tenant.

7.35.4 No Owner shall lease his or her Lot, or any portion thereof, without the prior written consent of the Board. Any lease of a Lot in violation of this Paragraph shall be void and of no force and effect. The Association shall have the power and authority to enforce this provision in any legal manner available, as the Board deems appropriate, including, without limitation, taking action to evict the occupants of any Lot which does not comply with the requirements and restrictions hereof. **EACH OWNER HEREBY APPOINTS THE ASSOCIATION AS ITS ATTORNEY-IN-FACT FOR THE PURPOSE OF TAKING LEGAL ACTION TO DISPOSSESS, EVICT OR OTHERWISE REMOVE THE OCCUPANTS OF HIS OR HER LOT AS NECESSARY TO ENFORCE COMPLIANCE WITH THIS PARAGRAPH.** Each Owner shall fully and truthfully respond to any and all requests by the Association for information regarding the occupancy of his or her Lot which in the judgment of the Board are reasonably necessary to monitor compliance with this provision.

Section 7.36. *Wetlands, Lakes and Other Water Bodies.* Unless otherwise designated by the Board in writing, all wetlands, lakes, ponds and streams within the Property, if any, shall be aesthetic amenities only and no other use thereof, including, without limitation, fishing, skiing, swimming, boating, playing or use of personal flotation devices, shall be permitted without the prior approval of the Board. The Association shall not be responsible for any loss, damage or injury to any Person or property arising out of the authorized or unauthorized use of lakes, ponds or streams within the Property. No docks, piers or other structures shall be constructed on or over any body of water within the Property, except such as may be constructed by the Declarant or the Association.

Section 7.37. *Single Family Restriction.* No Lot shall be occupied by more than a single family. For purposes of this restriction, a single family shall be defined as any number of Persons related by blood, adoption or marriage living with not more than two Persons who are not so related as a single household unit, or no more than three Persons who are not so related living together as a single household unit, and the household employees of either such household unit; provided, however, that nothing herein shall be interpreted to restrict the ability of one or more adults meeting the definition of a single-family from residing with any number of Persons under the age of eighteen (18) over whom such Persons have legal authority.

Section 7.38. *Access Restrictions.* Access to the Property shall be restricted to the Owner or resident, and the Owner's or resident's family, guests, invitees, contractors, and employees, and to policemen, firemen, ambulance personnel and similar emergency personnel in the performance of their respective duties, and to any officer of the court with an appropriate court order. Real estate agents will only be given access to the Property if the agent has scheduled the visitation through the Sales Center. The attendant on duty at the entrance gate must be notified by the Owner or resident in advance of any guest/invitee to be granted entrance to the Property. The Association may allow Owners or residents to submit a standing guest list to the Association for recurring guests and invitees. Any guest/invitee arriving at the gate without prior notification from the resident will be denied admittance. The attendant on duty will not make a courtesy call to the resident seeking permission to admit the guest/invitee, nor will the attendant on duty permit the guest/invitee to make a phone call from the entrance station. In such instances, the guest/invitee will have to contact the resident from a public phone or personal cell phone and have the resident contact the attendant with the appropriate authorization to admit the guest/invitee.

To ensure the intended guest/invitee is in the vehicle being admitted, some form of identification, such as a driver's license, must be verified for the named guest/invitee who has received authorized admittance. As deemed appropriate by the attendant on duty, the identifying information provided may be recorded in the gate log, along with a description and license number of the vehicle. The information may be retained by the Association.

Section 7.39. *Enforcement.* The Association may take such action as it deems advisable to enforce these Covenants as provided in this Declaration. In addition, the Association will have a right of entry on any part of the Property for the purposes of enforcing this Article, and any costs incurred by the Association in connection with such enforcement which remain unpaid thirty (30) days after the Association has given notice of the cost to the Owner and otherwise complied with the Act will be subject to interest at the Default Rate from the date of the advance by the Association through the date of payment in full by the Owner, and will be treated as a Default Assessment enforceable as provided in *Article IX*.

## ARTICLE VIII OWNERS' OBLIGATIONS FOR MAINTENANCE

Section 8.1. *Owner's Responsibility for Lot.* Except as provided in the Documents or by written agreement with the Association, all maintenance of a Lot and the Improvements located on it will be the sole responsibility of the Owner of the Lot. Such maintenance shall include the following:

8.1.1. His or her Lot and all landscaping, structures, fences, parking areas, sidewalks and other Improvements within the boundaries of the Lot, such maintenance to include, without limitation, the following:

- (i) Prompt removal of litter, trash, refuse and waste;
- (ii) Lawn mowing on a regular basis;
- (iii) Tree and shrub pruning;
- (iv) Immediate removal of all dead trees, shrubs or other plantings;
- (v) Watering landscaped areas;
- (vi) Keeping lawn and garden areas alive, free of weeds and attractive;
- (vii) Complying with all government, health and police requirements, including those of the Town;
- (viii) Repair of exterior damages to improvements; and
- (viii) Painting and repainting of improvements as often as is reasonably necessary to ensure the attractiveness and aesthetic quality of such Lot or improvement as determined by the Committee. The approval of the Committee otherwise required herein shall not be required for such repainting so long as neither the color scheme nor the arrangement of the colors of any improvements, nor the color of paint thereon, is substantially altered;

8.1.2. The driveway serving his or her Lot whether or not lying entirely within the Lot boundaries;

8.1.3. Upon issuance of a Certificate of Compliance, all landscaping on that portion of the Common Area or private right-of-way between the Lot boundary and the nearest curb or pavement edge of the adjoining street(s) or the nearest fence, wall or berm constructed on the adjacent Common Area;

8.1.4. All landscaping on that portion of the Common Area or public right-of-way between the Lot boundary and (i) any abutting bank or water's edge of any lake, pond, stream or wetlands area within the Property, or (ii) any Common Area abutting the bank or water's edge of any lake, pond, stream or wetlands area within the Property; provided, there shall be no right to remove trees, shrubs or similar vegetation from this area without prior approval pursuant to *Article VI* hereof.

Section 8.2. *Maintenance Standards.* Each Owner will maintain its Lot in accordance with the community-wide standard of Chateau du Lac. Each Lot on which a residential Living Unit has been constructed shall have, and the Owner of each such Lot shall operate and maintain, an underground water sprinkler system or other providing sufficient water or other means to preserve and maintain (to the standards described in this Article) the landscaping to the yard

areas exposed to the Public View. Said sprinkler or other system shall be installed and completed within fifteen (15) days after the main Living Unit has been completed. Landscaping of each such Lot shall be completed within thirty (30) days after the date on which the main Living Unit has been completed, with such landscaping meeting the requirements of this Declaration and the Design Guidelines. The Owner of each such Lot shall exercise all reasonable efforts to keep, preserve and maintain the landscaping in a healthy and attractive condition to the standards specified in this Declaration.

Section 8.3. *Assumption of Maintenance.* The Association will, in the discretion of the Board, assume the maintenance responsibilities of such Owner if, in the opinion of the Board, the level and quality of maintenance being provided by such Owner does not satisfy such standard. Before assuming the maintenance responsibilities, the Board will notify the Owner in writing of its intention to do so, and if the Owner has not commenced and diligently pursued remedial action within ten (10) days after the mailing of such written notice, then the Association will proceed. The expenses of the maintenance by the Board will be reimbursed to the Association by the Owner within ten (10) days after the Association notifies the Owner of the amount due, and any sum not reimbursed within that 10-day period will bear interest at the Default Rate from the date of the expenditure until payment in full. Such charges will be a Default Assessment enforceable as provided in *Article IX*.

Section 8.4. *Common Area Maintenance.* The Common Area shall be landscaped and maintained by the Association in a manner determined by the Declarant and Association to be compatible with the Property. The community of the Property is intended by the Declarant, planners and residents to embody the finest standards in single-family detached housing and landscaping, with the intent to produce a refined and elegant landscape setting for the Property houses.

Section 8.5. *Owner's Negligence.* If the need for maintenance, repair or replacement of any portion of the Common Area (including Improvements located on it) arises because of the negligent or willful act or omission of an Owner or his family member, guest, invitee or tenant, then the expenses incurred by the Association for the maintenance, repair or replacement will be a personal obligation of that Owner. If the Owner fails to repay the expenses incurred by the Association within ten (10) days after the notice to the Owner of the amount owed, then those expenses will bear interest at the Default Rate from the date of the advance by the Association until payment by the responsible Owner in full, and all such expenses and interest will become a Default Assessment enforceable in accordance with *Article IX*.

## ARTICLE IX ASSESSMENTS

Section 9.1. *Creation of Lien and Personal Obligation for Assessments.* Declarant, for each Lot owned within the Property, hereby covenants, and each Owner of any Lot, by accepting a deed for a Lot, is deemed to covenant to pay to the Association (1) the Annual Assessments

imposed by the Board of Directors as necessary to fund the Common Expenses and to generally carry out the functions of the Association; (2) Special Assessments for capital improvements and other purposes as stated in this Declaration; and (3) Default Assessments which may be assessed against a Lot pursuant to the Documents for the Owner's failure to perform an obligation under the Documents, because the Association has incurred an expense on behalf of or caused by the Owner under the Documents, or because the Association has levied a fine against the Owner for violation of the Documents.

All Assessments, together with fines, late charges, interest, collection costs, and reasonable attorneys' fees and costs, will be a charge on the land and will be a continuing lien upon the Lot against which each such Assessment is made until paid.

Each such Assessment, together with fines, late charges, interest, costs, and reasonable attorneys' fees, will also be the personal and individual obligation of the Owner of such Lot as of the time the Assessment falls due, and two or more Owners of a Lot will be jointly and severally liable for such obligations. No Owner may exempt himself from liability for any Assessments by abandonment of his Lot or by waiver of the use or enjoyment of the Common Area or any other reason. No diminution or abatement of assessment or set-off shall be claimed or allowed by reason of any alleged failure of the Association to take some action or perform some function required to be taken or performed by the Association or for inconvenience or discomfort arising from the making of repairs or improvements, or from any action taken to comply with any law, ordinance, or with any order or directive of any municipal or other governmental authority or for any other action taken or failed to be taken by the Association. Suit to recover a money judgment for unpaid Assessments and related charges as listed above may be maintained without foreclosing or waiving the Assessment lien provided in this Declaration.

Section 9.2. *Purpose of Assessments.* The assessments levied in accordance with this Declaration shall be used, exclusively for: (i) services and benefits common or available to all of the Owners, (ii) the purpose of promoting the convenience, recreation, and welfare of the residents in the Property, and, in particular, for the improvement and maintenance of properties, services and facilities devoted to this purpose and related to the maintenance, repair, use and enjoyment of the Common Areas and of the Living Units situated upon or appurtenant to the Property, including, but not limited to, the payment of patrol services, concierge services, insurance, landscaping, irrigation, utilities, repairs and/or replacements and additions thereto, and for the cost of labor, equipment, materials, management and supervision thereof.

Section 9.3. *Annual Assessments.*

9.3.1. *Calculation of Annual Assessments.* The Board of Directors will prepare a budget before the close of each fiscal year of the Association. Annual Assessments for Common Expenses will be based upon the estimated expenses of the Association to cover items including, without limitation, the cost of routine maintenance, repair and operation of the Common Area; expenses of management; and premiums for insurance coverage as deemed desirable or

necessary by the Association; snow and ice removal, landscaping, care of grounds and common lighting within the Common Area; routine renovations within the Common Area; wages; common water and utility charges for the Common Area; legal and accounting fees; management fees; expenses and liabilities incurred by the Association under or by reason of this Declaration; payment of any deficit remaining from a previous Assessment period; and the supplementing of the reserve fund for general, routine maintenance, repairs and replacement of improvements within the Common Area on a periodic basis, as needed.

9.3.2. *Required Reserves.* The Association shall establish and maintain an adequate reserve fund to ensure the continuous and perpetual use, operation, maintenance and/or supervision of all Common Areas and other facilities, structures, improvements, systems, areas or grounds that are the Association's responsibility.

9.3.3. *Change in Annual Assessment Rate.* The Board of Directors of the Association, may from time to time, after consideration of current maintenance costs and future needs of the Association, adjust (increase or decrease) the amount of the Annual Assessment and/or the due dates of any installments of the Annual Assessment; provided, however, that any increase (whether one or more) in the Annual Assessment during a fiscal year which increases the Annual Assessment in the aggregate by more than twenty percent (20%) over the prior fiscal year's Annual Assessment shall have the approval of the Declarant for so long as Declarant owns a Lot for development and sale in the Property, and a majority of the Members who are present, in person or by proxy, at a meeting duly called for such purpose; provided, however, that such notice and vote shall not be required or applicable in the event such assessment is required to defray the cost of any obligatory duty or responsibility of the Association to the Town set forth in this Declaration. The quorum for any action authorized by this *Section 9.3.3* shall be as follows:

1. At the first meeting called hereof, the presence at the meeting of Members or of proxies entitled to cast fifty-one percent (51%) of all the votes of the membership shall constitute a quorum.

2. If the required quorum is not forthcoming at the first meeting, another meeting may be called subject to the notice requirements set forth in the Bylaws and the required quorum at any such subsequent meeting shall be one-half ( $\frac{1}{2}$ ) of the required quorum at the preceding meeting, provided that no such subsequent meeting shall be held more than sixty (60) days following the preceding meeting.

9.3.4. *Apportionment of Annual Assessments.* Each Owner will be responsible for that Owner's share of the Common Expenses, which will be divided equally among the Lots included in the Project under this Declaration from time to time. Accordingly, at any given time, an Owner's share of Common Expenses will be determined as a fraction, the numerator of which is the number of Lots owned by the Owner, and the denominator of which is the number of Lots then platted and incorporated in the Project. Notwithstanding the preceding sentence, any

Common Expenses or portion thereof benefiting fewer than all of the Lots will be assessed exclusively against the Lots benefited.

9.3.5. *Collection.* Annual Assessments will be collected in periodic installments as the Board may determine from time to time, but until the Board directs otherwise, they will be payable annually in advance on the first day of each calendar year. The omission or failure of the Association to fix the Annual Assessments for any Assessment period will not be deemed a waiver, modification, or release of the Owners from their obligation to pay the same. The Association will have the right, but not the obligation, to make pro rata refunds of any Annual Assessments in excess of the actual expenses incurred in any fiscal year.

9.3.6. *Date of Commencement of Annual Assessments.* The Annual Assessments will commence as to each Lot on the first day of the month following the month in which the Lot is made subject to this Declaration. The first Annual Assessment levied on each Lot shall be adjusted according to the number of months remaining in the fiscal year at the time assessments commence on the Lot. The Annual Assessments will commence for Lots contained in each phase of annexed property incorporated in the Property on the first day of the month following the recording of the Declaration of Annexation incorporating them into the Property, and will be prorated according to the number of months remaining in the calendar year.

9.3.7. *Budget Deficits.* During the Declarant Control Period, the Declarant may satisfy its assessment obligations of its Lots either by paying assessments on its unsold Lots in the same manner as any other Owner or by paying the difference between the amount of assessments (exclusive of reserve contributions) levied on all other Lots subject to assessment and the amount of actual expenditures (exclusive of reserve contributions) incurred by the Association during the fiscal year (the "budget deficit"). Unless the Declarant otherwise notifies the Board in writing at least sixty (60) days before the beginning of each fiscal year, Declarant shall be deemed to have elected to continue paying on the same basis as during the immediately preceding fiscal year. Regardless of such election, the Association shall have a lien against all Lots owned by the Declarant to secure the Declarant's obligations under this Section, which lien shall have the same attributes and shall be enforceable in the same manner as the Association's lien against other Lots under this Article. The Declarant's obligations hereunder may be satisfied in the form of cash or by "in kind" contributions of services or materials, or by a combination of these. After elimination of the budget deficits or the termination of the Declarant Control Period, whichever occurs first, Declarant shall pay assessments on its unsold Lots in the same manner as any other Owner.

9.3.8. *Declarant Subsidy.* The Declarant may reduce the Annual Assessment for any fiscal year by payment of a subsidy (in addition to any amounts paid by Declarant under Section 9.3.7 above), which may be either a contribution, an advance against future assessments due from Declarant, or a loan, in the Declarant's absolute discretion. Any such subsidy shall be disclosed as a line item in the income portion of the budget. The payment of such subsidy in any year shall not otherwise obligate the Declarant to continue payment of such subsidy in future years, unless provided in a written agreement between Declarant and the Association.

Section 9.4. *Special Assessments.*

9.4.1. *Determination by Board.* The Board of Directors may levy in any fiscal year one or more Special Assessments for the purpose of defraying, in whole or in part, the cost of any construction or reconstruction, repair or replacement of a described capital improvement upon the Common Area, including the necessary fixtures and personal property related thereto, or, to cover unbudgeted expenses or expenses in excess of the amount budgeted provided that any such assessment shall have the approval of the Declarant for so long as the Declarant owns a Lot for development and sale in the Property, and a majority of the Members who are present, in person or by proxy, at a meeting duly called for such purpose; provided, however, that such notice and vote shall not be required or applicable in the event such assessment is required to defray the cost of any obligatory duty or responsibility of the Association to the Town set forth in this Declaration. The quorum for any action authorized by this *Section 9.4.1* shall be as follows:

1. At the first meeting called hereof, the presence at the meeting of Members or of proxies entitled to cast fifty-one percent (51%) of all the votes of the membership shall constitute a quorum.

2. If the required quorum is not forthcoming at the first meeting, another meeting may be called subject to the notice requirements set forth in the Bylaws and the required quorum at any such subsequent meeting shall be one-half (½) of the required quorum at the preceding meeting, provided that no such subsequent meeting shall be held more than sixty (60) days following the preceding meeting.

9.4.2. *Apportionment and Collection of Special Assessments.* The Board will apportion Special Assessments among the Lots and collect payment according to the same guidelines as set forth for Annual Assessments in *Section 9.3.2*. Lots in a newly platted portion of annexed property shall not be subject to Special Assessments which preceded the recording of the new Plat, unless the Special Assessment is due in monthly or periodic installments, in which case the Lots in the newly platted portion shall be subject to the Special Assessment only to the extent of the installments which are not yet due at the time of the recording of the new Plat.

9.4.3. *Notice.* Notice of the amount and due dates for such Special Assessments must be sent to each Owner at least thirty (30) days prior to the due date.

Section 9.5. *Default Assessments.* All monetary fines, penalties, interest or other charges or fees (excluding Annual and Special Assessments) levied against an Owner pursuant to the Documents, or any expense of the Association which is the obligation of an Owner or which is incurred by the Association on behalf of the Owner pursuant to the Documents, and any expense (including without limitation attorneys' and legal assistants' fees) incurred by the Association as a result of the failure of an Owner to abide by the Documents, and the costs of providing benefits, items or services not provided to all Lots, such as landscape maintenance,

child care, pest control service, security, concierge services and transportation services; constitutes a Default Assessment, enforceable in the same manner as Annual and Special Assessments as provided in this Declaration below.

Section 9.6. *General Remedies of the Association for Nonpayment of Assessment.* Any installment of an Annual Assessment, a Special Assessment, or Default Assessment which is not paid within thirty (30) days after its due date will be delinquent. In the event that an installment of an Annual or Special Assessment becomes delinquent, or in the event any Default Assessment is established under this Declaration, the Association, in its sole discretion, may take any or all of the following actions:

9.6.1. Assess a late charge for each delinquency at uniform rates set by the Board of Directors from time to time;

9.6.2. Charge interest from the date of delinquency at the Default Rate;

9.6.3. Suspend the voting rights of the Owner and the right of the Owner to use any recreational facility during any period of delinquency;

9.6.4. Accelerate all remaining Assessment installments for the fiscal year in question so that unpaid Assessments for the remainder of the fiscal year will be due and payable at once;

9.6.5. Bring an action at law against any Owner personally obligated to pay the delinquent Assessment charges;

9.6.6. File a statement of lien with respect of the Lot and foreclose the Association lien for assessments as set forth in more detail below.

The remedies provided under this Declaration will not be exclusive, and the Association may enforce any other remedies to collect delinquent Assessments as may be provided by law.

Section 9.7. *Assessment Lien.* The Association shall continue to have a lien from and after the date of the original Declaration against each Lot to secure payment of delinquent assessments, as well as interest (subject to the limitations of Texas law), late charges, and costs of collection (including attorney's fees). To evidence the lien, the Association may, but will not be obligated to, prepare a written lien statement with respect to the Lot, setting forth the name of the Owner, the legal description of the Lot, the name of the Association, and the delinquent Assessments amounts then owing. Any such statement will be duly signed and acknowledged by an officer or director of the Association or by the Manager or by any other duly authorized agent of the Association, and will be served upon the Owner of the Lot by mail to the address of the Lot or at such other address as the Association may have in its records for the Owner. However, the failure of the Association to execute and record any such document shall not, to any extent,

affect the validity, enforceability or priority of the lien. The lien may be foreclosed through judicial or, to the extent allowed by law, non-judicial foreclosure proceedings in accordance with Section 51.002 *et seq.* of the Texas Property Code (the "Foreclosure Statute"), as it may be amended from time to time, in like manner of any deed of trust on real property. In connection with the lien created herein, each Owner of a Lot hereby grants to the Association, whether or not it is so expressed in the deed, the contract for sale or other conveyance to such Owner, a power of sale to be exercised in accordance with the Foreclosure Statute. At any foreclosure proceeding, any Person may bid for the Lot at foreclosure sale and acquire, hold, lease, mortgage and convey the Lot. While the Association owns the Lot following foreclosure: (i) no right to vote shall be exercised on its behalf; (ii) no assessment shall be levied on it; and (iii) each other Lot shall be charged, in addition to its usual assessment, its equal pro rata share of the assessment that would have been charged such Lot had it not been acquired by the Association. The Association may sue to recover a money judgment for unpaid Assessments and other charges without foreclosing or waiving the lien securing the same.

The Association will have the power to bid on a Lot at foreclosure sale and to acquire, hold, lease, mortgage and convey the Lot.

Section 9.8. *Successor's Liability for Assessment.* All successors to the fee simple title of a Lot, except as provided in *Section 9.10*, will be subject to the Association's lien for any and all unpaid Assessments, interest, late charges, costs, expenses, and attorneys' and legal assistants' fees due against such Lot at the time of the transfer of title to such Lot without prejudice to any such successor's right to recover from any prior Owner any amounts paid by such successor. This liability of a successor will not be personal and will terminate upon termination of such successor's fee simple interest in the Lot. In addition, such successor will be entitled to rely on the statement of status of Assessments by or on behalf of the Association under *Section 9.13*.

Section 9.9. *Waiver of Homestead Exemption; Subordination of the Lien.* The lien of the Assessments will be superior to and prior to any homestead exemption provided now or in the future by the laws of the State of Texas, and to all other liens and encumbrances *except* the following:

9.9.1. Liens and encumbrances recorded before the date of the recording of this Declaration;

9.9.2. Liens for real estate taxes and other governmental assessments or charges duly imposed against the Lot by a Texas governmental or political subdivision or special taxing district, or any other liens made superior by statute; and

9.9.3. The lien for all sums unpaid on a First Mortgage recorded before the date on which the Assessment sought to be enforced became delinquent, including any and all advances made by the First Mortgagee, even though some or all of such advances may have been made subsequent to the date of attachment of the Association's lien.

With respect to *Section 9.9.3*, any First Mortgagee who acquires title to a Lot by virtue of foreclosing the First Mortgage or by virtue of a deed or assignment in lieu of such a foreclosure,

or any purchaser at a foreclosure sale of the First Mortgage, will take the Lot free of any claims for unpaid Assessments, interest, late charges, costs, expenses, and attorneys' (and legal assistants') fees against the Lot which accrue prior to the time such First Mortgagee or purchaser acquires title to the Lot.

All other Persons who hold a lien or encumbrance of any type *not* described in Sections 9.9.1 through 9.9.3 will be deemed to consent that the lien or encumbrance will be subordinate to the Association's future liens for Assessments, interest, late charges, costs, expenses and attorneys' (and legal assistants') fees, as provided in this Article, whether or not such consent is specifically set forth in the instrument creating any such lien or encumbrance.

Section 9.10. *Reallocation of Assessments Secured by Extinguished Liens.* The sale or transfer of any Lot to enforce any of the liens to which the lien for Assessments is subordinate will extinguish the lien of such Assessments as to installments which became due prior to such sale or transfer. The amount of such extinguished lien may be reallocated and assessed to all Lots as a Common Expense at the direction of the Board of Directors. However, no such sale or transfer will relieve the purchaser or transferee of a Lot from liability for, or the Lot from the lien of, any Assessments made after the sale or transfer.

Section 9.11. *Capitalization of the Association.* Upon acquisition of record title to a Lot from Declarant or any seller after Declarant, each Owner will contribute to the working capital and reserves of the Association an amount equal to one-fourth (1/4) of the amount of the Annual Assessment determined by the Board of Directors for the Lot for the year in which the Owner acquired title. This amount shall be deposited into an account and disbursed therefrom to the Association for use in covering expenses incurred by the Association pursuant to the terms of the Documents. Such payments to this fund will not be considered advance payments of Annual Assessments.

Section 9.12. *Exempt Property.* The following portions of the Property will be exempt from the Assessments, charges, and liens created under this Declaration:

9.12.1. Any easement or other interest in the Property dedicated and accepted by the Town and devoted to public use;

9.12.2. Any real property, an interest in which is owned by any special district established under Texas law;

9.12.3. All utility lines and easements; and

9.12.4. Common Area.

Section 9.13. *Statement of Status of Assessments.* The Association will furnish to an Owner or his designee or to any Mortgagee a statement setting forth the amount of unpaid

Assessments then levied against the Lot in which the Owner, designee or Mortgagee has an interest and any other additional information which may be required to be provided under law. The Association will deliver the statement personally or by certified mail, first class postage prepaid, return receipt requested, to the inquiring party within ten (10) days after the registered agent of the Association receives the request. The information contained in such statement, when signed by an officer or director of the Association or the Manager, will be conclusive upon the Association, the Board, and every Owner as to the Person or Persons to whom such statement is issued and who rely on it in good faith.

Section 9.14. *Failure to Assess.* The omission or failure of the Board to fix the Assessment amounts or rates or to deliver or mail to each Owner an Assessment notice will not be deemed a waiver, modification, or a release of any Owner from the obligation to pay Assessments. In such event, each Owner will continue to pay Annual Assessments on the same basis as for the last year for which an Assessment was made until a new Assessment is made, at which time any shortfalls in collections may be assessed retroactively by the Association.

## **ARTICLE X PROPERTY RIGHTS OF OWNERS**

Section 10.1. *Owners' Easements of Access and Enjoyment.* Every Owner has a perpetual, non-exclusive easement for access to and from his Lot and for the use and enjoyment of the Common Area, which easement is appurtenant to and will pass with the title to every Lot, subject to the provisions set forth in this Article.

Section 10.2. *Delegation of Use.* Subject to the following, any Owner may delegate, in accordance with the Documents, its rights of access and enjoyment described in *Section 10.1* above to its, employees, family, guests or invites. An Owner who leases his or her Lot shall be deemed to have assigned all such rights to the lessees of such Lot.

Section 10.3. *Easements of Record and of Use.* The Property will be subject to all easements shown on any recorded Plat and to any other easements of record or of use as of the date of recordation of this Declaration.

Section 10.4. *Emergency Access Easement.* A general easement is hereby granted to all police, sheriff, fire protection, ambulance, and all other similar emergency agencies or Persons to enter upon all streets and upon the Property in the proper performance of their duties.

## **ARTICLE XI SPECIAL DECLARANT RIGHTS AND ADDITIONAL RESERVED RIGHTS**

Section 11.1. *General Provisions.* Until the expiration of the Declarant Control Period, Declarant will have the following Special Declarant Rights:

11.1.1. *Completion of Improvements.* The right to complete Improvements as indicated on any Plat filed with respect to the Property, including any property annexed thereto;

11.1.2. *Development Rights.* The right to exercise all development rights in connection with the development of the Project (referred to here as "Development Rights"), including without limitation the right or combination of rights hereby reserved by Declarant, as follows:

(i) The right to annex property to the Project, in accordance with *Article XVI*.

(ii) The right to create Lots and Common Area on the Property, including property annexed thereto.

(iii) The right to subdivide and combine Lots and convert Lots into Common Area on any part of the Property, including property annexed thereto.

(iv) The right to withdraw real estate, whether contained within the Property initially subject to this Declaration, from Chateau du Lac, as provided in *Article XVI*.

(v) The right to the use of the name "Chateau du Lac" or any derivative of such name in any printed or promotional material. However, Owners within the Association may use the name "Chateau du Lac" in printed or promotional material where such term is used solely to specify that particular property is located within the Property and the Association shall be entitled to use the words "Chateau du Lac" in its name.

11.1.3. *Sales Activities.* The right to require all Realtors register at the Sales Centre prior to any showings, maintain sales and management offices, signs advertising the Project and model residences on the Common Area and on Lots owned by Declarant, whether contained within the Property initially subject to this Declaration, or within the property annexed thereto. Declarant may designate the location of a Sales Office, which at the discretion of Declarant may be a model home, for use in offering Lots for sale, and for all purposes incident thereto. Said use is intended as temporary, and shall cease at such time as ninety percent (90%) of the Lots in have been sold and living units constructed thereon, or on December 31, 2009, whichever is the later.

11.1.4. *Easements.* The right to use easements through the Common Area on the Property for the purpose of making Improvements on the Property.

11.1.5. *Master Association.* The right to make the Project subject to a master association.

11.1.6. *Association Directors and Officers.* The right to appoint any officer or

director of the Association, as provided in this Declaration or the Bylaws.

11.1.7. *Order of Exercise of Declarant's Rights.* Declarant makes no representations and gives no assurances regarding the legal description or the boundaries of any phase of the Property or the order or time in which the phases of the Property may be developed or incorporated in the Project, or whether or to what extent any other property will be developed or incorporated in the Project. Further, the fact that Declarant may exercise one or more of Declarant's Development Rights or other Special Declarant Rights on one portion of the Property (including property annexed thereto) will not operate to require Declarant to exercise a Development Right or other Special Declarant Right with respect to on any other portion of the Property (including property annexed thereto).

Section 11.2. *Supplemental Provisions Regarding Declarant's Rights.* Without limiting the generality of the foregoing, certain of these Special Declarant Rights are explained more fully in this Article below. Further, Declarant reserves the right to amend this Declaration and any Plat in connection with the exercise of any Development Right or any other Special Declarant Right, and Declarant also reserves the additional rights retained for the benefit of Declarant in this Article and in other provisions of this Declaration. Declarant may delegate or assign, temporarily or permanently, in whole or in part, to any Person any or all rights, powers, reservations, easements and privileges herein reserved by and to Declarant and any such delegee assignee shall have the same right to so assign.

Section 11.3. *Utility Easements.* There is hereby created a general easement upon, across, over, in, and under the Property for ingress and egress and for installation, replacement, repair, and maintenance of all utilities, including but not limited to water, sewer, gas, telephone, electrical, television and a master communications system. By virtue of this easement, it will be expressly permissible and proper for the companies providing utility services to install and maintain necessary equipment on the Property and to affix and maintain utility pipes, wires, circuits, conduits and other equipment under the Property. Any utility Declarant using this general easement will use its best efforts to install and maintain the utilities provided for without disturbing the uses of the Owners, the Association and Declarant; will prosecute its installation and maintenance activities as promptly and expeditiously as reasonably possible; and will restore the surface to its original condition as soon as possible after completion of its work. Should any utility Declarant furnishing a service covered by the general easement request a specific easement by separate recordable document, either Declarant or the Association will have, and are hereby given, the right and authority to grant such easement upon, across, over, or under any part or all of the Property without conflicting with the terms of this Declaration. This general easement will in no way affect, avoid, extinguish, or modify any other recorded easement on the Property.

Section 11.4. *Reservation for Expansion and Construction.* Declarant hereby reserves for itself and its successors and assigns and for Owners in all future phases of Chateau du Lac a perpetual easement and right-of-way for access over, upon, and across the Property, for construction, utilities, drainage, ingress and egress, and for use of the Common Area. The location of these easements and rights-of-way may be made certain by Declarant or the

Association by instruments recorded in Denton County, Texas.

Declarant further reserves the right to establish from time to time, by dedication or otherwise, utility, ingress and egress, and other easements over and across the Common Area, and to create other reservations, exceptions, and exclusions convenient or necessary for the use and operation of any other property of Declarant.

Section 11.5. *Reservation of Easements, Exceptions, and Exclusions for Utilities, Infrastructure, and Access.* Declarant reserves for itself and its successors and assigns and hereby grants to the Association, acting through the Board of Directors, the concurrent right to establish from time to time, by declaration or otherwise, utility and other easements, permits, or licenses over the Common Area, for purposes including but not limited to streets, paths, walkways, drainage, recreation areas and parking areas, and to create other reservations, exceptions, and exclusions in the interest of the Owners and the Association, in order to serve the Owners within Chateau du Lac as initially built and expanded.

Declarant also reserves for itself and its successors and assigns and grants to the Association the concurrent right to establish from time to time by an instrument recorded in Denton County, Texas, such easements, permits or licenses over the Common Area for access by certain Persons (other than Owners and Owners' families and guests) who may be permitted to use designated portions of the Common Area as contemplated under this Declaration.

Section 11.6. *Maintenance Easement.* An easement is hereby reserved to Declarant for itself and its successors and assigns and granted to the Association, and any member of the Board of Directors or Manager, and their respective officers, agents, employees and assigns, upon, across, over, in and under the Property and a right to make such use of the Property as may be necessary or appropriate to make emergency repairs or to perform the duties and functions which the Association is obligated or permitted to perform pursuant to the Documents, including the right to enter upon any Lot for the purpose of performing maintenance to the landscaping or the exterior of Improvements to such Lot, as required by the Documents.

Section 11.7. *Drainage Easement.* An easement is hereby reserved to Declarant for itself and its successors and assigns and granted to the Association, its officers, agents, employees, successors and assigns to enter upon, across, over, in, and under any portion of the Property for the purpose of changing, correcting, or otherwise modifying the grade or drainage channels of the Property so as to improve the drainage of water. Reasonable efforts will be made to use this easement so as not to disturb the uses of the Owners, the Association and Declarant, as applicable, to the extent possible; to prosecute such drainage work promptly and expeditiously; and to restore any areas affected by such work to a sightly and usable condition as soon as reasonably possible following such work. Declarant, or its officers, agents, employees, successors and assigns must inform and obtain the approval of the Board of Directors prior to undertaking such drainage work, which approval will not be unreasonably withheld.

Section 11.8. *Declarant's Rights Incident to Construction.* Declarant, for itself and its successors and assigns, hereby retains a right and easement of ingress and egress over, in, upon,

under, and across the Common Area and the right to store materials thereon and to make such other use thereof as may be reasonably necessary or incident to the construction of the Improvements on the Property or other real property owned by Declarant; provided, however, that no such rights will be exercised by Declarant in such a way as to unreasonably interfere with the occupancy, use, enjoyment or access to an Owner's Lot by that Owner or his family, tenants, employees, guests, or invites.

Section 11.9 *Easements for Lakes and Pond Maintenance and Flood Water.* The Declarant reserves for itself and its successors, assigns and designees the nonexclusive right and easement, but not the obligation, to enter upon the lakes, ponds, streams and wetlands located within the Common Area to (i) install, keep, maintain and replace pumps and related equipment; (ii) construct, maintain and repair any bulkhead, levee, wall, dam or other structure retaining water, and (iii) remove trash and other debris therefrom and fulfill their maintenance responsibilities as provided in this Declaration. The Declarant's rights and easements provided in this Section shall be transferred to the Association at such time as the Declarant shall cease to own any property subject to the Declaration, or such earlier time as Declarant may elect, in its sole discretion, to transfer such rights by a written instrument. The Declarant, the Association and their designees shall have an access easement over and across any of the Property abutting or containing any portion of any of the lakes, ponds, streams or wetlands to the extent reasonably necessary to exercise their rights under this Section.

There is further reserved herein for the benefit of Declarant, the Association and their designees, a perpetual, non-exclusive right and easement of access and encroachment over the Common Area and Lots (but not the Living Units thereon) adjacent to or within fifty (50) feet of lake beds, ponds and streams within the Property, in order to (i) temporarily flood and back water upon and maintain water over such portions of the Property, (ii) fill, drain, dredge, deepen, clean, fertilize, dye and generally maintain the lakes, ponds, streams and wetlands within the Common Area, (iii) maintain and landscape the slopes and banks pertaining to such lakes, ponds, streams and wetlands and (iv) enter upon and across such portions of the Property for the purpose of exercising its rights under this Section. All Persons entitled to exercise these easements shall use reasonable care in, and repair any damage resulting from the intentional exercise of such easements. Nothing herein shall be construed to make Declarant or any other Person liable for damage from flooding due to heavy rainfall or other natural disasters.

All lakes and wetlands within the Property are designed as water management areas and not for as aesthetic features. Because of fluctuations in water elevations within the immediate area, the water level of lakes, creeks, and streams will rise and fall. Declarant has no control over such elevations. Therefore, each Owner releases Declarant and the local municipality, and their affiliates, successors and assigns, from and against any and all losses, claims, demands, damages, costs, and expenses of whatever nature or kind, including attorney's fees and costs and appellate fees and costs, related to or arising out of the water elevations, including the absence of any water in the lakes, creeks, streams and ponds. Neither the Association nor any Owner shall alter, modify, expand, or fill any lakes or wetlands located on or in the vicinity of the Property, without

the prior written approval of the Declarant, so long as the Declarant owns any property described in *Exhibit A*, and such local, state, and federal authorities as may have jurisdiction over such matters.

Section 11.10. *Easements to Serve Additional Property.* The Declarant hereby reserves for itself and its duly authorized agents, representatives, employees, successors, assigns, licensees and mortgagees, an easement over the Common Area for the purposes of enjoyment, use, access and development of neighboring property, whether or not such property is made subject to this Declaration. This easement includes, but is not limited to, a right of ingress and egress over the Common Area for construction of roads and for connecting and installing utilities on such property. Declarant agrees that it and its successors or assigns shall be responsible for any damage caused to the Common Area as a result of vehicular traffic connected with development of such property. Declarant further agrees that if the easement is exercised for permanent access to such property and such property or any portion thereof is not made subject to this Declaration, the Declarant, its successors or assigns shall enter into a reasonable agreement with the Association to share the cost of maintenance of any access roadway serving such property.

Section 11.11. *Easements Deemed Created.* All conveyances of Lots hereafter made, whether by Declarant or otherwise, will be construed to grant and reserve the easements contained in this Article, even though no specific reference to such easements or to this Article appears in the instrument for such conveyance.

## ARTICLE XII INSURANCE AND FIDELITY BONDS

Section 12.1. *Authority to Purchase.* All insurance policies relating to the Common Area will be purchased by the Board of Directors or its duly authorized agent. The Board of Directors, the Manager and Declarant will not be liable for failure to obtain any coverage required by this Article or for any loss or damage resulting from such failure if such failure is due to the unavailability of such coverage from reputable insurance companies, or if such coverage is available only at demonstrably unreasonable costs.

Section 12.2. *General Insurance Provisions.* All such insurance coverage obtained by the Board of Directors will be governed by the following provisions:

12.2.1. As long as Declarant owns any Lot, Declarant will be protected by all such policies in the same manner as any other Owner.

12.2.2. The deductible, if any, on any insurance policy purchased by the Board of Directors may be treated as a Common Expense payable from Annual Assessments or Special Assessments (allocable to all of the Lots or to only some of the Lots, if the claims for damages arise from the negligence of particular Owners, or if the repairs benefit only particular Owners),

or as an item to be paid from the operating account established by the Board of Directors.

Section 12.3. *Physical Damage Insurance on Common Area.* The Association will obtain insurance for such insurable Improvements and with such coverages, limits, deductibles and other terms and conditions as the Board may determine from time to time.

Section 12.4. *Liability Insurance.* The Association will obtain a comprehensive policy of public liability insurance and property damage insurance with such coverages and limits as the Board of Directors may from time to time determine, insuring each member of the Board of Directors, the Association, the Manager, and the respective employees, agents, and all Persons acting as agents against any liability to the public or the Owners (and their guests, invitees, tenants, agents, and employees) arising in connection with the ownership, operation, maintenance, or use of the Common Area and streets and roads within Chateau du Lac and any other areas under the control of the Association. Declarant will be included in the coverage as an additional insured in Declarant's capacity as an Owner or Director. The Owners will be included as additional insureds, but only for claims and liabilities arising in connection with the ownership, existence, use or management of the Common Area.

The Board of Directors will review the coverage limits from time to time, but, generally, the Board will carry such amounts of insurance usually required by private institutional mortgage lenders on projects similar to Chateau du Lac, and in no event will such coverage be less than \$1,000,000.00 for all claims for bodily injury or property damage arising out of one occurrence.

Section 12.5. *Fidelity Insurance.* Fidelity bonds or insurance coverage will be maintained by the Association to protect against dishonest acts on the part of its officers, directors, trustees, and employees, and on the part of all others who handle or are responsible for handling the funds of or administered by the Association. In addition, if responsibility for handling funds is delegated to a Manager, such bonds or insurance coverage will be required for the Manager and its officers, employees, and agents, as applicable. Such fidelity bonds or insurance coverage will name the Association as an obligee or insured and will be written in such amount as the Board may determine appropriate.

Section 12.6. *Provisions Common to Physical Damage Insurance, Liability Insurance, and Fidelity Insurance.* Any insurance coverage obtained by the Association under the provisions of this Article above will be subject to the following provisions and limitations:

12.6.1. The named insured under any such policies will include Declarant, until all of the Lots in Chateau du Lac have been conveyed, and the Association, as attorney-in-fact for the Owners, or the authorized representative of the Association (including any trustee with whom the Association may enter into any insurance trust agreement, or any successor trustee, each of which is sometimes referred to in this Declaration as the "Insurance Trustee"), who will have exclusive authority to negotiate losses under such policies.

12.6.2. Each Owner will be an insured Person with respect to liability arising out of the Owner's interest in the Common Area or membership in the Association.

12.6.3. The policies will contain a waiver by the insurer of any right to claim by way of subrogation against Declarant, the Board of Directors, the Association, the Manager, and any Owner and their respective agents, employees, or tenants, and in the case of Owners, members of their households.

Section 12.7. *Personal Liability Insurance of Officers and Directors.* To the extent obtainable at reasonable cost, appropriate officers' and directors' personal liability insurance will be obtained by the Association to protect the officers and directors from personal liability in relation to their duties and responsibilities in acting as such officers and directors on behalf of the Association.

Section 12.8. *Worker's Compensation Insurance.* The Association will obtain worker's compensation or similar insurance with respect to its employees, if any, in the amounts and forms as may now or hereafter be required by law.

Section 12.9. *Other Insurance.* The Association may obtain insurance against such other risks, of a similar or dissimilar nature, as it will deem appropriate with respect to the Association's responsibilities and duties.

Section 12.10. *Insurance Obtained by Owners.* Each Owner will have the right to obtain insurance for such Owner's benefit, at such Owner's expense, covering the Owner's Lot and Improvements, personal property and personal liability. However, no insurance coverage obtained by an Owner will operate to decrease the amount which the Board of Directors, on behalf of all Owners, may realize under any policy maintained by the Board or otherwise affect any insurance coverage obtained by the Association or cause the diminution or termination of that coverage. Any such insurance obtained by an Owner will include a waiver of the particular insurance Declarant's right of subrogation against Declarant, the Board of Directors, the Association, the Manager, and other Owners.

### **ARTICLE XIII ASSOCIATION AS ATTORNEY-IN-FACT**

Each and every Owner hereby irrevocably constitutes and appoints the Association as such Owner's true and lawful attorney-in-fact in such Owner's name, place, and stead for the purpose of dealing with the Improvements on the Common Area upon damage or destruction as provided in *Article XIV* or a complete or partial taking as provided in *Article XV* below. Acceptance by any grantee of a deed or other instrument of conveyance from Declarant or from any Owner will constitute appointment of the Association as attorney-in-fact as provided in this *Article XIII*. As attorney-in-fact, the Association will have full and complete authorization, right, and power to make, execute and deliver any contract, assignment, deed, waiver or other

instrument with respect to the interest of any Owner that may be necessary or appropriate to exercise the powers granted to the Association as attorney-in-fact.

## **ARTICLE XIV DAMAGE OR DESTRUCTION**

### *Section 14.1. Damage or Destruction of Common Area.*

14.1.1. *Estimate of Damages or Destruction.* As soon as practical after an event causing damage to or destruction of any part of the Common Area, unless such damage or destruction is minor, the Association will obtain an estimate or estimates that it deems reliable and complete of the costs of repair and reconstruction of that part of the Common Area so damaged or destroyed. "Repair and reconstruction" as used in this Article will mean restoring the damaged or destroyed Improvements to substantially the same condition in which they existed prior to the damage or destruction.

14.1.2. *Repair and Reconstruction.* As soon as practical after obtaining estimates, the Association will diligently pursue to completion the repair and reconstruction of the damaged or destroyed Improvements. As attorney-in-fact for the Owners, the Association may take any and all necessary or appropriate action to effect repair and reconstruction, and no consent or other action by any Owner will be necessary. Assessments of the Association will not be abated during the period of insurance adjustments and repair and reconstruction.

14.1.3. *Funds for Repair and Reconstruction.* The proceeds received by the Association from any hazard insurance will be used for the purpose of repair, replacement and reconstruction. If the proceeds of the insurance are insufficient to pay the estimated or actual cost of such repair and reconstruction, the Association may, without the vote of the Owners, levy, assess and collect in advance from all Owners, a Special Assessment sufficient to provide funds to pay such estimated or actual costs of repair and reconstruction. Further levies may be made in like manner if the amounts collected prove insufficient to complete the repair and reconstruction.

14.1.4. *Disbursement of Funds for Repair and Reconstruction.* The insurance proceeds held by the Association and the amounts received from the Special Assessments provided for in *Section 9.4* constitute a fund for the payment of the costs of repair and reconstruction after casualty. It will be deemed that the first money disbursed in payment for the costs of repair and reconstruction will be made from insurance proceeds, and the balance from the Special Assessments. If there is a balance remaining after payment of all costs of such repair and reconstruction, such balance will be distributed to the Owners in proportion to the contributions each Owner made as a Special Assessment to the Association under *Section 9.4*, or, if no Special Assessments were made, then in proportionate shares on the basis of the allocation to the Owners of Common Expenses under *Section 9.3.4*, first to the Mortgagees and then to the Owners, as their interests appear.

14.1.5. *Decision Not to Rebuild.* If, during the Declarant Control Period, Declarant, and, at all times, Owners representing at least sixty-seven percent (67%) of the votes in the Association agree in writing not to repair and reconstruct damage to the Common Area and no alternative Improvements are authorized, then and in that event the Property will be restored to its natural state and maintained as an undeveloped portion of the Common Area by the Association in a neat and attractive condition, and any remaining insurance proceeds will be distributed in proportionate shares on the basis of the allocation to the Owners of the Common Expenses under *Section 9.3.4*, first to the Mortgagees and then to the Owners, as their interests appear.

*Section 14.2. Damage or Destruction Affecting Lots.* In the event of damage or destruction to the Improvements located on any Lot, the Owner thereof will promptly repair and restore the damaged Improvements to their condition prior to such damage or destruction. If such repair or restoration is not commenced within one hundred and eighty (180) days from the date of such damage or destruction, or if repair and reconstruction is commenced but then abandoned for a period of more than ninety (90) days, then the Association may, after notice and hearing as provided in the Bylaws, impose a fine accruing at the rate of \$100.00 per day or such other rate imposed by the Board in compliance with the Act, charged against the Owner of the Lot until repair and reconstruction is commenced, unless the Owner can prove to the satisfaction of the Association that such failure is due to circumstances beyond the Owner's control. Such fine will be a Default Assessment and lien against the Lot as provided in *Section 9.5* above.

## ARTICLE XV CONDEMNATION

*Section 15.1. Rights of Owners.* Whenever all or any part of the Common Area is taken or conveyed in lieu of and under threat of condemnation by any authority having the power of condemnation or eminent domain, each Owner will be entitled to notice of the taking, but the Association will act as attorney-in-fact for all Owners in the proceedings incident to the condemnation proceeding, unless otherwise prohibited by law.

*Section 15.2. Partial Condemnation; Distribution of Award; Reconstruction.* The award made for such taking will be payable to the Association as trustee for all Owners to be disbursed as follows:

If the taking involves a portion of the Common Area on which Improvements have been constructed, then, unless, within sixty (60) days after such taking, Declarant, during the Declarant Control Period, and, at all times, Owners representing at least sixty-seven percent (67%) of the votes in the Association otherwise agree, the Association will restore or replace such Improvements so taken on the remaining land included in the Common Area to the extent lands are available therefor, in accordance with plans approved by the Board of Directors. If such Improvements are to be repaired or restored, the provisions in *Article XIV* above regarding the disbursement of funds with respect to casualty damage or destruction that is to be repaired will

apply. If the taking does not involve any Improvements on the Common Area, or if there is a decision made not to repair or restore, or if there are net funds remaining after any such restoration or replacement is completed, then such award or net funds will be distributed in proportionate shares on the basis of the allocation to the Owners of Common Expenses under *Section 9.3.4*, first to the Mortgagees and then to the Owners, as their interests appear.

*Section 15.3. Complete Condemnation.* If all of Chateau du Lac is taken, condemned, sold, or otherwise disposed of in lieu of or in avoidance of condemnation, then the regime created by this Declaration will terminate, and the portion of the condemnation award attributable to the Common Area will be distributed as provided in *Section 15.2*.

## ARTICLE XVI EXPANSION AND WITHDRAWAL

*Section 16.1. Reservation of Right to Expand.* Declarant reserves the exclusive right, but not the obligation, until termination of the Declarant Control Period, to expand the effect of this Declaration to include any land contiguous to the Property provided such land is to be developed at a density equal to or less than that of the existing Property. The consent of the owner of the annexed property shall be required; however, the consent of the existing Lot Owners and Mortgagees will not be required for any such expansion. Declarant will have the unilateral right to transfer to any other Person this right to expand by an instrument duly recorded.

*Section 16.2. Association's right to Expand.* Upon termination of the Declarant Control Period, the Association may further expand the Property with the prior written consent and approval of the majority of the outstanding votes of the Association and the consent of the owner of such annexed property.

*Section 16.3. Declaration of Annexation.* Any expansion of the Project may be accomplished by recording a Declaration of Annexation and one or more supplemental Plats in the records of the Clerk and Recorder of Denton County, Texas. The Declaration of Annexation will describe the real property to be expanded, submitting it to these Covenants and provide for voting rights and Assessment allocations as provided in this Declaration. Specifically, each new Lot in the annexed area will be allocated one vote and liability for the Common Expenses equal to the liability allocated to each of the other Lots. Any such expansion will be effective upon the filing for record of such Declaration of Annexation, unless otherwise provided therein. The expansion may be accomplished in stages by successive supplements or in one supplemental expansion.

Upon the recordation of any such Declaration of Annexation, the definitions used in this Declaration will be expanded automatically to encompass and refer to the annexed property. Such Declaration of Annexation may add supplemental covenants peculiar to the annexed property in question, or delete or modify provisions of this Declaration as it applies to the annexed property added. However, this Declaration may not be modified with respect to that

portion of the Property already subject to this Declaration, except as provided below for amendment.

Section 16.4. *Withdrawal of Property.* Declarant reserves the right to withdraw from the jurisdiction of these Covenants any parcel of the Property, provided, however, that no parcel may be withdrawn after it has been conveyed to a purchaser unless such purchaser consents thereto in writing.

## **ARTICLE XVII MORTGAGEE PROTECTIONS**

### **Section 17.1. *First Mortgagees' Rights.***

17.1.1. *Payment of Taxes and Insurance.* First Mortgagees, jointly or singly, may pay taxes or other charges which are in default and which may or have become a charge against any of the Common Area or Improvements thereon, and may pay overdue premiums on hazard insurance policies, or secure new hazard insurance coverage on the lapse of a policy, for the Common Area. First Mortgagees making such payments will be owed immediate reimbursement from the Association.

17.1.2. *Cure of Delinquent Assessments.* A First Mortgagee will be entitled to cure any delinquency of the Owner of the Lot encumbered by the First Mortgagee in the payment of Assessments. In that event, the Eligible Mortgage Holder will be entitled to obtain a release from the lien imposed or perfected by reason of such delinquency.

Section 17.2. *Title Taken by First Mortgagee.* Any First Mortgagee who obtains title to a Lot pursuant to the remedies provided in the First Mortgage, including foreclosure of the First Mortgage, will be liable for all Assessments due and payable as of the date title to the Lot vests in the First Mortgagee under the statutes of Texas governing foreclosures. Except as provided in the Act, such First Mortgagee will not be liable for any unpaid dues and charges attributable to the Lot which were due and payable prior to the date such title vests in the First Mortgagee.

## **ARTICLE XVIII ENFORCEMENT OF COVENANTS**

Section 18.1. *Violations Deemed a Nuisance.* Every violation of the Documents is deemed to be a nuisance and is subject to all the remedies provided for the abatement of the violation. In addition, all public and private remedies allowed at law or equity against anyone in violation of these Covenants will be available.

Section 18.2. *Compliance.* Each Owner or other occupant of any part of the Property will comply with the provisions of the Documents as the same may be amended from time to time.

Section 18.3. *Failure to Comply.* Failure to comply with the Documents will be grounds for an action to recover damages or for injunctive relief to cause any such violation to be remedied, or both. The Association shall be authorized to impose sanctions for violations of the Governing Documents as provided in *Section 18.3*. Sanctions may include, without limitation, the following:

18.3.1. Imposing reasonable monetary fines, which shall constitute a lien upon the violator's Lot;

18.3.2. Suspending an Owner's right to vote;

18.3.3. Suspending any Person's right to use any recreational facilities within the Common Area; provided, however, nothing herein shall authorize the Board to limit ingress or egress to or from a Lot;

## **II. ARCHITECTURE AND LANDSCAPE STANDARDS**

### **A. INTRODUCTION REGARDING ARCHITECTURE AND LANDSCAPE STANDARDS**

The community of the Property is intended by the Declarant, planners and residents to embody the finest standards in single-family detached housing. Incorporating many of the design elements and attitudes found in traditional neighborhoods, the Property is designed to be a true community having the distinctiveness of well built homes and the continuity of traditional forms, materials and details.

Landscaped greens provide focal points. Elevating the house above the street level contributes to a gracious image of the residence that was historically achieved with a different foundation technology. Sizes of houses, their placement on lots and locations of driveways and garages are determined to develop a community-wide sense of elegance in the street space/yard space.

In contrast to other subdivisions in which house designs are used "off the shelf" without regard for the qualities and characteristics of specific building sites, the Property focuses attention on design opportunities which can make each residence responsive to its particular surroundings. Careful site planning and architectural design can allow each house to take advantage of scenic views or offer residents a pleasant invitation to outdoor living in their own backyard and make the front yard space a place of social activity (once characteristic of neighborhoods).

In addition to these considerations, concepts of style and image of the individual residences are critical in developing the sense of quality, graciousness and elegance which the Property affords. Exterior design of houses should be based upon the use of traditional architectural elements, the great popularity of which attests to their evocative power. There should be design latitude to allow for fresh interpretation of the concept of "traditional house" but the essential and identifying aspects of the archetype will be faithfully portrayed. The idea of elegance, a prime consideration in the image of the houses, includes in its meaning a sense of propriety and refinement; therefore, design overstatements in either the architecture of the houses or the landscape treatment of their lots should be strictly avoided.

In accordance with the intent to develop the Property as a distinguished residential environment, architectural control standards have been compiled as a guide to residents, architects, designers and Builders. These standards elaborate upon the Declarant's general commitment to quality by dealing specifically with numerous elements of the residential environment. The standards will be upheld by The Committee, which is granted, by the Declarant, the power of review over the design for each Living Unit in the Property.

**C. ARCHITECTURE AND LANDSCAPE STANDARDS - GUIDELINES AND REQUIREMENTS**

**I Intent**

The intent of these Architectural Guidelines and Requirements is to establish continuity in the residential design of the Property. In addition, these criteria promote differentiation among the homes of the Property as well as a distinctiveness in visual character and quality that is unique to this community. Emphasis is on quality in material, design and construction in order to promote well-crafted residences within the community. These guidelines allow diversity in design while insuring the architectural integrity of the community as a whole.

**II Site Planning**

**a. Building Lines**

Typical setbacks of building lines from property lines, as well as utility and drainage easements, are determined by ordinance of the Town of Flower Mound. In addition to these requirements, further setbacks are enforced by deed restrictions for aesthetic reasons. In the Property, the front building line has been established as 40' in order to add more space from the street. The Committee may, in special cases, grant variances to building lines not specifically determined by City Ordinance. A variance will be allowed only if it can be demonstrated to the satisfaction of the Committee by the designers of the particular house that the variance will allow a significant positive contribution to the house design or more importantly, to site design of the community as a whole.

**b. Staking Approval**

In making its determination regarding the appropriateness of a site plan, the Committee has the authority to require that houses, driveways and garages be staked out and that such siting be approved by the Committee before any tree cutting is done or any construction site

work is begun. In addition, staking approval will be required on all "wooded" Lots identified on the development plan. In lieu of staking approval, Builder may submit a site exhibit laid out at 1:30 scale locating existing trees, house, all flatwork and out buildings for Committee approval.

c. Tree Removal

No trees measuring six inches in diameter at a point two feet above ground level, no flowering trees, shrubs or evergreens may be removed without prior approval of the Committee, unless located within fifteen (15) feet of an existing building, within ten feet of the approved site for a building or within the approved right-of-way of a driveway, walk or pool.

d. Site Maintenance During Construction

1. General Maintenance. Each Lot shall be maintained in a neat clean, orderly condition by the Builder during construction and until the house is closed. Stumps, felled trees, building debris, etc. must be removed from each Lot by the Builder as often as necessary to maintain attractiveness of the construction site. Debris may not be dumped in any area of the development unless a specific location for such a purpose is approved in writing by the Committee. The Builder must use hay bales, soil erosion netting or other satisfactory means to prevent mud from flowing into the street. The Builder install a four (4) foot chain link fence around construction site prior to the commencement in an effort to keep all debris within the boundaries of the Lot on which the house is being constructed. The Declarant reserves the right to cause any construction sight to be cleaned by the Owner or General Contractor if the sight is deemed to be a nuisance by Declarant.

2. Signs The only signs that shall be allowed on the Lot within the Property shall be the Committee approved sign identifying the approved Property Builder for the applicable Lot within the Property and political signs. The Builder sign shall be the standard sign approved for such use by the Committee. For Builders who are not approved Property Builders, this sign shall be the standard Property address sign approved by the Committee. Information on the address signs can be obtained through Declarant. See *Section 7.9* of the Declaration for more information regarding signs. All signs must comply with the Town of Flower Mound ordinances. At the time of adoption of this Declaration, such ordinances provide that an Owner may erect only one sign advertising the property for sale, and the sign may not exceed two feet by three feet in area, fastened only to a single stake in the ground and extending not more than three feet above the surface of the ground. Any unauthorized signs found on a Lot will be removed by a Committee representative.

III Foundations

a. Height (Graphic A)

The elevation of the first level finish floor for any Living Unit shall be Unit shall be at least two feet (2') above finish grade at the front entry to that residence, unless otherwise approved by the Committee. This standard is enforced for aesthetic reasons. The required steps at the front entry of each residence serve to develop a sense of graciousness in the relationship between yard and residence. The aesthetic purpose of these required steps makes them more than functional. Therefore, the tread of the step should be surfaced with brick or stone or some

other masonry material acceptable to the Committee and approved by them in writing. Moreover, the scale of the residence, especially at the first level, is augmented, allowing the use of the extra height above grade to establish a stronger base table and connection to the ground.

b. Finish (Graphic B)

Foundation concrete shall not be visible above the finish grade. The masonry ledge for all foundation work shall be dropped to grade level. Where the grade is sloping, the masonry ledge shall be stepped so that no more than 6 inches of concrete is visible above grade at any one point along the grade. Where stucco is used as a veneer material, the stucco shall either come in contact with a masonry base or come within 6 inches of the grade.

IV Wall Treatment

a. Masonry

1. Masonry and Type of Brick (Graphic C)

The dominant material of this development shall be masonry. Masonry is the essential material in the perceived continuity of the Property; however to the extent not in conflict with the express terms of provisions of this Declaration other than this subsection 1, other materials may be approved for use by the Committee. The exposed exterior wall area of the Living Unit, exclusive of doors, windows and gables, shall contain not less than eighty-five percent (85%) masonry. Brick masonry shall not consist of any domestic hard-fired brick larger than Queen sized.

2. Mortar Joints

All mortar joints shall be enhanced; un-enhanced joints are unacceptable. Only natural or light colored mortars shall be used. Colored mortars can only be used if approved by the Committee in a sample panel of the actual brick and mortar being proposed.

b. Stone

1. Type of Stone

To create a stronger sense of a picturesque streetscape, stone (rustic, shipped, finished or concrete cast stone) is encouraged as a veneer or accent material. When stone is used in conjunction with brick, the stone shall always appear to uphold the brick and may be used to enhance a discrete architectural form (such as a turret or other subordinate mass), to articulate openings (such as a window or door surround). In other applications of stone, it shall be limited to the ground connected elements of the facade (such as a water table). In addition to the above, finished stone or concrete cast stone may be used for belt courses, corner articulation (such as quoins or pilaster columns) or cornice and gable/pediment articulation. Brick may be used as an accent with stone in the same relationships as described above.

2. Artificial Stone

Concrete or other artificially manufactured naturalistic stones are prohibited. This prohibition does not include "cast stone" with a smooth limestone, antique or distressed finish. Cast stone proposed for use within the Property must be approved by the Committee for application, color, texture and compositional quality.

c. Wood (acceptable woods: cedar, fir, mahogany and redwood).

1. Siding

Siding may be used as accent material only. Siding shall only be wood horizontally applied lap siding or tongue and groove siding or cementitious siding product such as "Hardiboard" used in a similar manner. No diagonal siding shall be used. Vertical siding, wood shingle or wood shake siding may be used if it essential to a particular style and approved by the Committee. Rough-sawn wood siding shall not be used, except in the case of cedar shakes or shingles used as siding in the manner specified above. No masonite, composition wood product, such as particleboard, shall be used as siding in any exterior application. All wood siding shall be primed on the "back side" before installation. If "Hardiboard" or like product is utilized, it must be wood textured, used in lengths of wall that do not exceed sixteen (16) feet and all framing installation must be checked for plumb; no "Hardiboard" may be used in porch ceiling detail if visible from the street. No masonite shall be added in the cornice detail.

2. Trim

All wood trim shall be smooth, high quality finish-grade wood stock, stained or painted as approved by the Committee. No composition wood products shall be used for exterior trim with the exception that exterior grade finished veneer plywood. Columns may be iron, natural stone, fiberglass, and stucco, approved synthetic or cast stone.

3. Cornice

The cornice package is a critical key element to the architectural detail.

i. No Hardi product or composite material may be used in the cornice detailing.

ii. Architectural plan must include a separate cornice detail.

iii. The cornice package may use the approved wood; cedar, fir, mahogany, redwood or other approved exotic hard wood.

iv. The cornice package look-out or corbels shall not have a brick or stone freeze and shall be surrounded on three (3) sides with exterior veneer.

d. Stucco

Stucco may be used as an exterior wall finish when applied over metal lathe or block. When stucco is called for as an exterior wall material, its detailing should be consistent with the

style of the architecture. The Committee has the right to require that stucco be painted if it is not uniform in color, unless such non-uniformity is an element of the design approved by the Committee. Stucco must be an authentic lath and stucco technology; "Dryvit" type systems or Styrofoam products may be used as a decorative accent trim only. The intent of the Committee is to establish a solid substrate and discourage wall sections that do not convey the attributes of permanence and quality. Therefore, EFS coatings may be used if used over an authentic lath and stucco or masonry substrate; control joints in stucco must be coordinated with the architectural design and should be indicated on the plans submitted.

e. Synthetic Materials

Metal or aluminum siding may not be used.

f. Changes in Material (Graphic D)

The location of external wall material changes (e.g. brick to wood siding) should have a logical relationship to changes in the form of the house and not be dictated by simple economy. Material changes in the same wall plane are prohibited unless it is part of a detail that is characteristic of an historic architectural style or the dominant material is terminated with an architectural element (such as a pilaster column) that clearly implies structural termination. Material changes at corners are prohibited. All materials must wrap the corner and change in one of the manners described above.

V Window Treatment

a. Type of Windows

Windows are a primary means for visually conveying "quality" in construction. All windows and/or window units visible from any street must have framing made of wood, with aluminum or vinyl clad. Windows and/or window units not visible from any street may be wood with aluminum or vinyl clad or all vinyl. The use of metal or aluminum windows and/or window units is prohibited. Windows that are adjoined horizontally and/or vertically shall be divided by vinyl or aluminum clad mullion. When adjoined both vertically and horizontally, both mullions shall vinyl or aluminum clad.

b. Sill (Graphic E)

To maintain the sense of order and purposeful design, it is important that the windows of an elevation have a common reference line that addresses the sill or head. Therefore, the random placement of windows is discouraged, including the practice of raising the sill of windows used in baths, closets, laundries and kitchens. Where such windows are on the front elevation, the use of a window without a sill is encouraged. Windows without a sill include round, elliptical, octagonal or square decorative windows. The Committee will disapprove windows on the front elevation that do not conform to a common sill line unless the deviation is visually explained by the design of the elevation.

c. Head (Graphic F)

All windows shall be below the cornice detail. Windows may abut the cornice detail or be engaged with it if the design of the window surround modulates with the banding or detailing of the cornice. In all cases where windows are visible from the street, a cornice detail shall exist between the windows and the soffit.

d. Surround or Header (Graphic G)

Window surrounds and header shall be at least four (4) inches in width and depth. Windows exposed to the Public View shall be accentuated with a projected surround or header. Articulation of the accentuating detail can be of masonry stone or cast stone. On a stucco house only stone or cast stone will be allowed. Wood may be used for this purpose on an elevation that has siding and must be compliant with this standard.

e. Attached Windows

Windows that are adjoined horizontally and/or vertically shall be divided by vinyl or aluminum clad mullion. When adjoined both vertically and horizontally, both mullions shall be shall be vinyl or aluminum clad.

f. Masonry Separations

Brick or stone detail used to vertically divide adjoining windows shall be at least four (4) inches wide. When specially shaped cut stone or concrete cast stone masonry is used to divide adjoining windows, the distance between windows can be a dimension that is appropriate to the design and approved by the Committee.

g. Metal Windows

The use of metal or aluminum is prohibited.

h. Glazing

No reflective glazing will be allowed on any front or side facade, or on any facade which is exposed to the Public View. Tinted glass and dark adhesive film is not encouraged by the Committee and will not be permitted on any windows exposed to the Public View where the transmission coefficient exceeds 27%. Stained and leaded glass is allowed provided that the glass is crafted according to one of the following techniques:

1. Soldered coming

2. Lead "H" coming

No acrylic or "pourable" techniques will be allowed.

i. Window Ornamentation

Shutters must have authentic operable hardware, and be wide enough so that when closed, they cover any window on which they are used. The use of burglar bars on the

exterior of any windows is prohibited.

## VI Roof Treatment

### a. Roof Massing (Graphic H)

To the extent possible, roofs shall be massed with an orderly sequence of subordinate roofs extending from a dominant roof mass. Ridge lines shall be straight and not interrupted by intersecting ridges that create a bump in the ridge line.

### b. Roof Pitch

The minimum roof pitch, exposed to the Public View, shall be a minimum of twelve (12) feet of rise to twelve (12) feet of run on the front elevation, unless approved by the Committee. Certain architectural styles (such as Georgian or Mediterranean) do not require a steep minimum roof pitch and the appropriateness of a pitch less than that specified above will be analyzed on a case by case basis to determine if it is an important historical expression of the style being portrayed.

### c. Roof Projections

No plumbing stacks, venting stacks, skylights or attic ventilators shall penetrate roof surfaces facing the street or visually dominant in the street view. All such roof penetrations must be mounted straight and perpendicular to the ground plan (except for skylights and attic ventilators) and be painted to blend with the roof color. Plans submitted for review shall identify the areas of the roof intended for roof penetrations. No solar collecting frames or satellite dishes shall be mounted to any roof unless specifically approved by the Committee. Turbine attic vents are not permitted within the Property.

### d. Materials

Roof materials shall be a high quality; no composition shingle shall be permitted. Roof materials equal to or better than "ELK Capstone Premium Choice" are encouraged. However, the Committee may approve certain roof materials with a thirty year warranty with other conditions for roof construction and architectural enhancement of the house or landscaping imposed. No three tab shingles shall be allowed. Other permitted roofing materials may include natural slate, high quality clay or concrete tile in a gray blend or dark color range. All asphalt shingle roofs shall have closed valleys. Standing seam metal (factor finished steel, or copper) and metal shingles used in applications other than accent roofing over a canopy or bay, require special consent of the Committee. Galvanized metal or metal roofs with a seam other than a standing closed seam are not allowed. Wood shingles are not allowed, except that true (fire treated) wood shakes will be allowed if consistent with the historic style proposed in the design. "Hardy" slate will not be permitted. Single sample panels must be approved by the Committee. Slate roofs shall have mitered hips. Where concrete or clay tiles are used, the roof forms should be as simple as possible to eliminate the visual distraction of many protruding hop and ridge tiles.

### e. Roof Color

Like brick, roof color is an important element in the visual conveyance of continuity. Therefore, the roof colors shall be limited to those approved by the Committee.

f. Chimneys (Graphic J)

All fireplace chimneys shall be brick or stone. Whenever possible, chimneys shall be used to enhance the architectural variety of the Property. Special attention shall be given to the complexity and form of the cap detailing. In addition, the shaft of the flue shall be distinctively detailed so that the chimney has a complexity in plan as well as elevation. Prefabricated metal fireplaces and metal flues may not be used. All Chimneys must be full masonry; no exceptions shall be considered. All metal chimney flue caps must be enclosed inside a decorative envelope of brick or fabricated metal and match the cap detail of and full masonry firebox chimneys in the same house. Any chimneys visible from the street must have the appearance of a full masonry firebox with a "chimney breast" at least 6 feet wide and a flue of a size consistent with a full masonry flue.

VII Entry Form

a. Visual Significance (Graphic K)

Entries are hierarchically significant. Therefore, the architectural form which embodies the entry shall be, with or engaged by, the dominant roof mass. This principal shall apply unless a deviation from the principal is essential to accuracy of an historic style.

b. Entry Enhancement

Whenever permitted by the architectural massing of the house, the entry form shall be enhanced with coach lights. Gas coach lights shall have a minimum length of twenty-four (24) and shall be mounted at a six (6) foot minimum mounting height. In all cases, the entryway of a house shall be lighted at night from a downlight soffit, automatically switched by a photocell in order to promote further continuity of the community, enhance security and enrich the night form of the development.

VIII Exterior Lighting Fixtures

All exterior lighting fixtures visible from any street must be mounted to the exterior veneer of the home. Fixtures must be electronic ignition gas fixtures approved by the Committee. Decorative fixtures should be complementary to the architectural features of the residence. No pole-mounted light or building mounted high intensity light will be allowed. Exterior lighting fixtures shall have a maximum 175 watt bulb per fixture, except where otherwise approved by the Committee. Foundation mounted facade lighting is prohibited. Exterior architectural lighting shall be subtle architectural lighting from the top down only. Landscape up-lighting is not permissible. Exterior down-lighting may be electrical and mounted from porch ceilings only. The lamps in exterior entry lighting shall be incandescent bulb or natural gas only. Flood light use and location shall be approved by the Committee.

IX Garages

a. Relation to Street

Garages shall face the side Lot line or rear of the property, unless the garage is screened by a Porte-cochere, privacy wall or detached behind the front side of the house in relation to the street.

b. Garage Doors

No garage doors visible from the street, except as approved by the Committee pursuant to this Section IX.

c. Garages Which Have to Face the Street

In cases where garage doors are visible or have to face the street, approval by Committee is required. If approved, the doors shall be a 9 ft. maximum width and door openings shall be enhanced with such enhancements as brick/stone surrounds, deep insets and/or gas coach lights. Adjacent doors shall be separated by at least 12 inches of masonry material. The garage door facing the street shall be set back from the plane of the house closest to, and most parallel with, the right of way line of the street, a minimum distance of 30 feet.

X Gables

To the extent possible, gables shall be varied with any one block by the use of a detailing that is historically appropriate for the style. The treatment of the gable shall be designed so that elements of craftsmanship are fully employed. Hipped roof styles are not meant to be discouraged by this criteria.

XI Doors

Exterior doors may be custom designed iron doors.

a. Single Doors

Single doors shall be cedar, fir, mahogany or redwood or another species deemed acceptable by the committee. When single doors are used architectural enhancement on casing must be not less than six (6) inches wide and six (6) inches deep measured from the door jam. To accomplish this, heads and jambs must be made of approved veneer and be of a dimension compatible with the entry. In this way, the doors are a logical subdivision of the system that divides the entry.

b. Double Doors

When double doors are used, the transom can sit on the door header and the doors must be at least 8 feet tall.

c. Door Height

All entry doors must be a minimum of 8 feet in height.

## XII Cornice and Plate

### a. Cornice

Cornices shall be enhanced with more than two courses of projected brick, stone or stucco (used in conformance with item Number IV, above) which creates a shadow, texture and visual complexity where the wall plane meets the soffit.

### b. Plate

85% of the plate height of the front elevation shall be 10 feet or greater.

## XIII Exterior Color Scheme

The sample wall must be constructed on-site for review and approval by the committee within 30-days of pouring slab. All exterior paint and stain colors must be approved by the Committee. The palette of exterior paints and stains for each residence shall be selected to complement, coordinate or harmonize with the colors of buildings which are used in their "natural" state, such as brick, stone, copper, etc. As deemed appropriate by the Committee, exterior colors selected for a residence may be modified or changed in order to respond to existing color palettes of adjacent residences.

## XIV Mechanical Equipment

All air conditioning compressors, power and meter boxes, satellite dishes and pool equipment shall be completely screened from Public View. Screening may consist of architectural elements to be approved by the Committee.

## XV Recreation Equipment

All recreation equipment shall not be visible from any street as viewed from 6 feet above centerline of any street. Permanent or moveable recreation equipment such as basketball goals are not allowed in front and/or side yards within 20' of any property line on any Lot less than two acres in area or within 40' of any property line on any Lot equal to or greater than two acres in area. The Committee may prohibit the placement of recreational equipment such as basketball goals in front or side yards where, in the determination of the Committee, such location interferes with the architectural harmony of the Living Units on such Lot or adjoining Lots.

## XVI Ornamental Iron Gates

All ornamental iron driveway gates shall be a maximum of 14 feet wide. Gate tops shall be ornamental or flat. If ornamental gate is wider than 14 feet, two (2) gates shall be required. All ornamental iron gates to be approved by the Committee.

## XVII Maintenance

Each residence shall be maintained in a neat, clean, orderly condition by the Owner. Periodic repairs shall be made to correct broken shingles, peeling paint, broken brick and any other condition which suggests visual deterioration of a residence.

#### **B. SITE DEVELOPMENT GUIDELINES AND REQUIREMENTS**

##### **I Intent**

The intent of the site development guidelines is to clarify the necessary components in the creation of a distinguished residential community. Through uniform application of these components, the Property will become a showplace of fine homes, set on private, tree-line streets. The desired landscape character is one of simplicity: emphasizing tree placement and layers of shrubs at the building foundation. The landscape and site elements should be understated, creating a setting for the homes, rather than competing with the architecture for visual attention.

##### **II Site Elements**

###### **a. Coverage**

Total site coverage of building, driveways, walks, decks, pools and other structures may not exceed eight percent (80%) of the area within the property lines.

###### **b. Driveways and Motor Courts**

1. Intent

To the highest extent possible, automobile circulation and storage areas are to be de-emphasized, highlighting the landscape and pedestrian environment.

2. Location and Configuration

- (a). Driveways shall be located to minimize the amount of pavement. Driveways shall be a minimum of 16 feet and a maximum of 12 feet in width except as required for garage access, and shall be located a minimum of five feet from the side property line to allow for planting and/or fencing. Driveways shall have a meandering rather than straight alignment whenever possible.

- (b). Driveways shall extend from the sidewalk to garage. The sidewalk shall not be visually or physically broken by the driveway. Enhanced concrete will transition the area from the street to the drive.

3. Materials

- (a). Brick, stone arrival areas are encouraged. Any other materials, finishes or colors must have the approval of the Committee. All driveway materials must be maintained in a manner to retain original structure, texture and color characteristics.

4. Circular Drives/Motor Courts

- (a). Drives should be "cut" slightly into the raised fill area of the Lot. All driveway slopes should be as uniform as possible with smooth transitions between areas of varying pitch. Planting should screen the direct view of the drive area from the streets as much as possible.

- (b). Builders must submit a grading plan (with spot elevations and slopes indicated), and landscape plan for approval of circular drives and retaining walls. All exposed faces of any retaining walls must be faced in stone and an architectural section of the wall submitted with the landscape plan.

5. Driveway Access over Swales and Bar Ditches

- (a). This is accomplished by concrete reinforced pipes (maximum 18" each, as more than one may be required) under the landscape area and driveway with concrete headwalls on both sides of the driveway. Concrete headwalls shall be veneered in masonry materials to match the primary residence.

- c. Walks and Steps

1. Sidewalks

- (a). No sidewalks, edging at road, chains, stakes or reflectors are permitted.

## 2. Front Walks

(a). Fountains, statuary and planters within the walk are strongly discouraged but may be located within the front yard, behind the building line.

(b). Front walks may be natural brushed or sandblasted concrete, colored concrete or masonry units such as brick or stone. All front walk material must be approved by the Committee.

(c). Front steps and porch must be constructed of masonry, either brick or stone. If bricks are utilized, solids must be used where brick holes would be exposed. Paver bricks are required for all horizontal surfaces. Other masonry material may be used if approved by the Committee.

## 3. Address Numbers

(a). House numbers shall be surface mounted cast stone or custom iron. Mailbox numbers shall be approved by the committee and meet the US Postal requirements or other manufacturer of plaques approved by the Committee. Location of mounting on the house is up the Builder; however, a 5' mounting height is recommended.

### d. Pools, Decks and Other Structures

#### 1. Coverage

(a). Total coverage of all hardscape elements (such as house, paving, pool and other structures) may not exceed sixty percent (60%) of total Lot area.

#### 2. Swimming Pools and Spas

(a). Pools may be constructed within the architectural building lines of each Lot. Pool decks may extend beyond the building line, but must allow adequate room for landscaping and fencing. Pool surface, deck and equipment must be screened from Public View, including public streets, common areas and reserves.

#### 3. Other Structures

(a). All structures to have designed concrete foundations and match the finish of primary residence.

(b). All structures, including gazebos, arbors, trellis or shade structures must be submitted to the Committee for specific approval.

(c). All guest houses, playhouses and storage buildings must be submitted to the Committee for specific approval and may require screening from Public View.

(d). No portable storage units are allowed.

4. Mailboxes

(a). Mailboxes for the Property shall be individually designed. Specific details for construction can be obtained through Declarant.

(b). Mailboxes to be located adjacent to driveway or front walk.

e. Walls and Fences/Fencing

1. The Public View

(a). Of special concern throughout the community comprising the Property is the view of private areas from Public View areas. Public View areas include streets, reserves and parks. Walls and fences are an extension of the house architecture and must convey the same sense of quality and permanence. All walls and fences must be approved by the Committee.

2. Privacy Walls/Fencing

(a). Walls must be of masonry construction or a combination of iron and masonry, as approved by the Committee and be 6 feet in height. Materials shall match building materials or follow the wall design approved by the Committee. Where the Committee deems appropriate, brick will match common area amenity, and a landscape buffer may be required.

(b). All fencing, publicly visible or not, shall be iron fencing or a combination of iron and masonry, as approved by the Committee. If privacy is required by a homeowner between lots, it shall be accomplished through landscape screening such as Nellie Stevens Hollies, Red Cedars, Leyland Cypress or other live screening material. Please refer to landscape section for permitted materials.

3. Intentionally Omitted.

4. Wood Fences

(a). Wood fences are not allowed.

5. Locations and Heights

(a). All fences and walls behind the front building line must be a minimum of 6 feet with a maximum of 8 feet. Fences or walls other than described above are prohibited. No fences or walls over 48" high may extend beyond the front building line.

f. Lighting

1. Floodlighting must be down lighting only.

(a). All exterior lighting must be approved by the Committee.

(b). Floodlighting fixtures must be attached to the building or other architectural elements. Floodlighting shall not illuminate adjacent public or private property. Light fixtures and source shall be hidden from Public View across property lines. 175 watt maximum per bulb.

(c). House front elevations may not be floodlighted and no floodlighting of the front yard may occur.

(d). Moonlighting or uplighting existing trees is permitted, but the light source must be hooded. Each Lot shall have a minimum of 8 flood lights to light landscape and residence located in front yard for consistent level of lighting.

(e). Tree lighting mounted in new trees less than 6" in caliper is prohibited. Smaller trees may be uplighted by way of staked mounted ground fixtures. Fixtures must be recessive in color and hidden from view by other landscaping. Lighting bulb types may be mercury vapor or metal halide only.

## 2. Ornamental Lighting

(a). Accent lighting should be integrated with the building or architectural elements. Excessive accent lighting is discouraged. Freestanding pole light fixtures are prohibited, unless approved by Committee. Sconces or carriage lamps are encouraged near the front door. Front doors may have recessed lighting above the door or pin spots in trees.

### g. Fire Pits

Fire pits must be approved by the Committee as to size and location.

## III Screening

### a. Mechanical Equipment

1. All mechanical and electrical equipment (pool, air conditioners, satellite dish antennae, etc.) must be completely screened from Public View. A combination of trees, hedges, or walls should be used to screen equipment and mechanical areas.

2. No radio or television towers shall be constructed or installed on any Lot or the exterior of the Living Unit or any structure on the Lot.

### b. Rear Yard

1. Pools, play structures, play equipment, barbecue areas and lawn furniture shall be screened from Public View by a combination of trees and shrubs within 20' of the property line on all Lots less than two acres in size and within 40' of the property line on all Lots equal to or greater than two acres in size.

c. Driveways and Parking Areas

1. Automobile areas are to be substantially screened.
2. Circular drives and auto courts shall be substantially screened from Public View with a combination of trees and shrubs.

d. Exposed Foundations

1. All exposed foundations shall be screened from Public View.

IV Grading and Drainage

a. Slope

1. Lawn slope should be emphasized rather than tapering evenly to the base of the house. Lawn slopes shall be 3:1 maximum and 5:1 minimum of those lots with raised building pads.
2. Retaining walls, if used, must be stone masonry construction materials. Retaining walls must be submitted to the Committee for approval.

b. Site and Roof Drainage

1. Surface run-off shall not flow onto adjacent Lot areas.
2. Gutter downspouts must dump onto gravel or drain block, or be carried underground to the swale in SD35 piping or better. ADS piping is not permitted.
3. Gutter downspout termination methodology for front and front/sideyards must be approved by the Committee. Pipe to be set in concrete with stone and brick finish, or exit through a 12 x 12 area drain flush with the ground.
4. There must be positive drainage away from the house.

c. Berms

1. Berms over 24" high in front yards are prohibited, unless determined by the Committee to be in harmony with the other landscaping and structural design elements of the subject Lot and adjoining Lots.

d. Side Yard Retaining Walls

1. Side yard retaining walls may be required between lots. If required, they must be constructed of Millsap sandstone drystack walls or other material specified by the Committee. No vertical dimensions may exceed 4' in height.

## V Planting

### a. Front Yards

1. Intent: The intent of these guidelines is to produce a refined and elegant landscape setting for the Property houses. The landscape should not compete with the architecture for attention, but should provide the setting. The emphasis, again, is upon those areas of the Lot visible from public areas in the community.

### 2. Front and Front/Side yard Trees

(a). In lots with no existing trees, a minimum of eight (8) additional trees in the front and side yards are required. Front yard trees may be selected from a short list of trees including the following. Trees are to be minimum 3" caliper.

Bur Oak	White Oak	Cedar Elm
Chinquapin Oak	Swamp White Oak	Swamp Chestnut Oak
Red Oak	English Oak	Shingle Oak
Chestnut Oak	Live Oak	Loblolly Pine

(b). Existing trees of 8" caliper may count for the required trees up to two.

(c). Other trees selected must receive special approval by the Committee.

### 3. Ornamental Trees

(a). Each front yard shall have a minimum of 5 ornamental trees planted from the approved species list. These trees must be 6'-8' high when planted.

### 4. Shrubs and Groundcover Beds

(a). Shrub planting shall consist of a minimum of 2 layers of shrubs planted at the foundation of the buildings with a minimum of 72" in depth. One layer of evergreen shrubs approximately 30"-36" in height and two lower layers of dwarf shrubs or groundcover are encouraged. Three layers are preferable.

(b). All plans must conform to the species indicated on the approved plant list. Use of variegated, "Pom Pom", or other "exotic" plants is discouraged.

(c). Shrubs shall be 5-gallon container, planted 24 inches on center, triangular spacing.

(d). Groundcover or lower shrub layers shall be 1-gallon container, planted 12 inches on center, or 4" pots planted 8 inches on center for groundcovers, dwarf shrubs as groundcover shall be a minimum 3-gallon 18 inches on center or 1-gallon 12 inches on center minimum.

(e). Beds shall compliment the building architecture and shall have a minimum width of 6 feet. Rectilinear and curvilinear beds will be allowed if proper care is used in establishing pleasing forms. The number of plant species in the front yard beds should be kept to a maximum of five, varying only from one shrub layer to the next. Ornamental specimen shrubs and trees can exceed these five species. The number of plants shall be appropriate for the size bed. Plants shall be spaced to cover the entire bed within one growing season. No open mulch areas are acceptable.

(f). Free-floating beds smaller than 200 square feet in lawn areas around trees prohibited.

(g). All beds shall be edged with Green Ryerson (or Committee approved equal) steel edging. No brick masonry or other edging material may be used.

(h). No shrubs shall be planted in front of windows which will ever exceed the sill height. Ornamental trees or shrubs in front of windows are discouraged.

(i). All bed areas shall be 6" of professional bed mix tilled into the top 10" of the soil.

(j). For areas with native trees including post oaks, shrubs and groundcover with intensive irrigation needs should be avoided. Natural leaf mold, mulch, or native groundcover requiring no irrigation should be used.

## 5. Lawn

(a). Front yards shall be solid sod if not in shrub beds. Seeding front lawns is prohibited.

### b. Rear Yards

1. Intent: In all areas not exposed to Public View, the homeowner may landscape as they please. Total hardscape coverage may not exceed 50 percent of the Lot area and building setbacks for structures must be observed.

#### 2. Lawn

Landscape areas not in shrubs or hedges may be solid sod, sprigged or hydro mulched.

#### 3. Screening for Privacy

Screening for privacy and from Public View may be accomplished by the use of hedges or ornamental evergreen trees. Please refer to "Approved Plant List" below for species.

- a. Installation of landscaping and site improvements is to be executed in a high quality manner, consistent with the image of the Property.

1. The Committee may reject any improvement where the material or workmanship fails to meet acceptable industry standards.

- b. Prior to occupancy of the house, or 30 days after completion of construction (whichever occurs first), trees, irrigation and lawn must be installed.

- c. Signage

1. Landscape contractor and subcontractor signs are prohibited within

the Property at all times.

### VIII Maintenance

a. Maintenance and proper care of installed landscaping is critical to the appearance of the Property community and the health and beauty of the plant materials.

b. All landscaped areas are required to be maintained in a healthy and beautiful appearance by the Builder or homeowner.

c. Proper Maintenance Includes:

1. Adequate irrigation for proper plant health.
2. Fertilization of trees, shrubs, hedge and lawn.
3. Pruning of all trees including street trees.
4. Pruning of hedges as appropriate.

## B. Architectural Review Process

### I. Architectural Control Committee

#### a. Authority

This design standards document is promulgated pursuant to authority granted unto the Committee pursuant to Article VI of this Declaration.

#### b. Purpose

Architecture and landscape plans for all improvements requiring Committee approval must be submitted to and approved by the Committee pursuant to these design standards for the sole and exclusive purpose of assuring that all structures and landscape improvements within the development are in harmony of design in terms of exterior space, planting, massing, general styling, use of detail and size as well as conform to a high standard of quality construction as set by the common property improvement and existing standards of the neighborhood. Differing conditions exist on many lots and therefore, the Committee will use the design standards as a guide to interpreting the application of this document and to the extent possible achieve the purpose stated herein. The Committee may vary its application of the design standards (in approving plans submitted to it) in those cases where (in the sole opinion of the Committee) site conditions or view conditions, style and/or aesthetic considerations warrant such a variation.

### II. Preliminary Architectural Submittals

#### a. Before Design

The Owner's or Builder's architect would be wise to discuss his objectives, standards and ideas with a member of the Committee before doing any drawing. It is strongly recommended that the Owner and the architect visit and investigate the site prior to initial design work. The corners of all of the affected Lot have been monumented. Using the recorded subdivision plat, the architect should be able to find these monuments. However, an effort should be made to insure that the monuments identified are in fact true Lot corner monuments and not offset corner monuments, points of tangency, section corners or easement lines which may also be located on the Lot or along Lot lines. If the monuments cannot be found, seek the assistance of a licensed surveyor before beginning any planning.

Before the architect begins his site plan, he should have a licensed surveyor do an accurate topographic and tree survey of the Lot with the building setback lines drawn in. This will be required as part of the final submittal during the approval process. Topographic extrapolations done from aerial surveys are not sufficiently accurate for this purpose.

b. Requirements

1. Speculative Built Homes

The Owner or Builder planning to build a speculative home must submit a program statement for the proposed residence stating the intended square footage, proposed sales price and any unusual conditions about the affected Lot that may necessitate additional consideration under the requirements of these design standards.

2. Custom Built Homes

The Owner or Builder intending to build a custom home for a client must submit a design program statement stating the proposed approximate square footage of the structure, any special requirements of the client that may be at variance with these design standards and any particular features of the affected Lot that may necessitate additional consideration under the requirements of these design standards.

3. Tree Marking

The Owner or Builder shall review the affected Property or Lot with a member of the Committee to identify any particular trees that must remain on the affected Property or Lot after house construction.

4. Review of these Design Standards

The Owner or Builder must have reviewed these design standards and stated any issues which affect his proposed plans to build on the affected Property or Lot and so indicate on his design program statement.

5. Optional Conceptual Design

The Owner or Builder is strongly urged to prepare or have prepared a preliminary design set which includes a site plan, floor plans, elevations and a roof plan. Identification of design issues at the preliminary stage are usually easier to address. Any conceptual plans submitted will be reviewed and if found in conformance with these standards, a "Notice of Preliminary Plan Approval" shall be issued.

Only complete preliminary submittals will be reviewed by the Committee. The affected Lot number, block number, phase number and Owner name must be clearly printed on the first page of the submittal. All drawings must be accurate enough to be scaled reliably.

c. Notice of Approval

Approval of any preliminary design should be taken as approval to proceed with design work based upon the preliminary submission itself. However, approval or conditional approval of a preliminary design does not constitute automatic approval of the final submission.

By emphasizing the preliminary design review, the Committee hopes that all

design issues for each residence will be reached before final drawings are submitted for review.

d. Commencement and Completion of Construction

Preliminary design plans for the construction of a home on a Lot must be submitted to the Committee within twenty-four (24) months after the date the Declarant transfers title to the Lot to the Owner. Construction of a home must commence within twenty-four (24) months from the date Declarant transfers title to the Lot to the Owner or three (3) months from the date the Committee approves of the plans under Article VI of the Declaration, whichever occurs earlier.

III. Final Architectural Submittals

An address of an existing residence where a submitted material is already in use (such a brick or roof shingles) is also acceptable.

Note: Final architectural submittals will not be approved without the corresponding landscape design. The address of the Committee may be changed by notice stating the new address filed in the Real Property Records of Denton County, Texas and referring to the Volume and Page of the Declaration

b. Notice of Approval

The design for each residence must be approved by the Committee as provided in Article VI of the Declaration before construction of the residence can begin. Deviation from approved construction documents during construction (without written approval by Committee) constitutes a violation of this Declaration. On the Committee's authority, corrections of such deviations will be required.

c. Review of Construction

The Committee reviews construction within the Property on a weekly basis to insure that each residence is built as approved. This also allows Builders to address any difficulties of compliance with the Committee, thereby insuring the design integrity of the residence and the community as a whole.
